**SUMMARY ANALYSIS**

This bill provides that a Special Risk Class member of the Florida Retirement System (FRS) who is a law enforcement officer, correctional officer, correctional probation officer, firefighter, emergency medical technician or paramedic is considered totally and permanently disabled if he or she has a job-related injury that causes physical or mental impairment, and is unable to perform the duties of his or her position, unless proven otherwise by the secretary of the Department of Management Services ("administrator"). Under current law, a member must be prevented from rendering useful and efficient service as an officer or employee to be considered disabled. Thus, the bill creates an easier standard for an injured employee to meet in order to receive a disability benefit, and shifts the burden of proof from the employee to the administrator.

The bill also relaxes post-retirement restrictions—which presently do not permit a disability retiree to receive disability benefits while gainfully employed—for the Special Risk Class members who qualify for in-line-of-duty disability retirement. Reemployment of a disabled officer, firefighter, emergency medical technician or paramedic is authorized:

- by an employer who does not participate in the FRS; or
- after one calendar month of retirement, by an FRS employer.

Subject to the above conditions, the disabled officer, firefighter, emergency medical technician or paramedic may be reemployed in any position other than the one he or she was employed at the time of disability retirement, and will continue to receive his or her disability retirement benefits.

The estimated first-year cost of the bill is \$9,962,000, with increasing costs each year thereafter. The bill does not appropriate additional funding; therefore, costs will be absorbed within existing resources. The benefits provided by the bill are funded by increasing the FRS employer contribution rate for the Special Risk Class from 17.37 percent to 17.68 percent (+0.31 percent).

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

**Provide limited government** – The bill increases the employer contribution rates for the Special Risk Class of the Florida Retirement System.

**Promote personal responsibility** – The bill increases benefits to certain state and local employees who may be injured due to the intentional acts of another, without requiring the responsible party to pay the costs of the increased benefits.

**Empower families** – The bill provides for increased disability retirement benefits for certain state and local employees who are injured under certain conditions.

#### B. EFFECT OF PROPOSED CHANGES:

##### Background

##### **Officer Malcolm Thompson**

In 1997, Officer Malcolm Thompson of Kissimmee was shot several times in the head, neck and stomach by a suspect wanted for armed robbery and carjacking. Despite his severe injuries, he shot and killed the suspect.<sup>1</sup>

##### **Florida Retirement System**

The Florida Retirement System (FRS) is administered by the Department of Management Services through its Division of Retirement. The FRS provides retirement and disability benefits for state and county employees and for employees of those cities and special districts that choose to participate in the FRS. Currently, employer contribution rates to the FRS Trust Fund are 6.67 percent for the Regular Class and 17.37 percent for the Special Risk Class<sup>2</sup> (the members of which include, but are not limited to, police officers, correctional officers, correctional probation officers, firefighters, emergency medical technicians and paramedics).

Limited disability benefits are payable to FRS-covered employees for illnesses or injuries causing an individual to be totally and permanently disabled. For injuries not occurring in the line of duty, an employee must have five to 10 years of creditable service before the disability to be eligible for this benefit. However, if the injury occurs in the line of duty, the employee qualifies for an increased disability benefit regardless of his or her years of service.

Florida law describes “total and permanent disability” for all FRS members as being “if, in the opinion of the administrator,<sup>3</sup> he or she is prevented, by reason of a medically determinable physical or mental impairment, from rendering useful and efficient service as an officer or employee.”<sup>4</sup> The member must provide proof of disability, including certification by two licensed physicians that the member’s disability is total and permanent (i.e., that the member is unable to engage in any gainful employment). In order to receive the higher in-line-of-duty disability benefits, the member also must show by competent evidence that the disability occurred in the line of duty (unless a legal presumption applies such as is provided under s. 112.18, F.S.). The general disability benefit is 42 percent of the employee’s average

<sup>2</sup> Section 121.71(3), F.S.

<sup>3</sup> Section 121.021(5), F.S., defines the term “administrator” for purposes of ch. 121, F.S., to mean the secretary of the Department of Management Services.

<sup>4</sup> Section 121.0911(4)(b), F.S.

final compensation (AFC). The in-line-of-duty benefit for special risk employees is at least 65 percent of the AFC.<sup>5</sup>

Currently, the law does not allow a FRS disability retiree to receive disability benefits while being gainfully employed. The disability retiree will void his or her disability benefits by becoming employed by any employer—at any time.

### **Effect of Bill**

HB 143 establishes a different disability determination criteria for certain FRS Special Risk Class members. The bill provides that a member of the Special Risk Class who is employed as a law enforcement officer, correctional officer, correctional probation officer, firefighter, emergency medical technician or paramedic is considered totally and permanently disabled in the line of duty if he or she is prevented, by reason of a medically determinable physical or mental impairment caused by a job-related injury, from performing useful and efficient service in his or her position. The employee will receive the higher in-line-of-duty disability benefit unless the secretary of the Department of Management Services (“administrator”) can provide “competent medical evidence to the contrary.” Thus, the burden of proof is shifted from the employee to the administrator, and an easier standard is created for the injured employee to meet in order to receive the disability benefit.

The bill also relaxes post-retirement restrictions for the Special Risk Class members who qualify for in-line-of-duty disability retirement. Reemployment of a disabled officer, firefighter, emergency medical technician or paramedic is authorized:

- by an employer who does not participate in FRS; or
- after one calendar month of retirement, by an FRS employer.

Subject to the above conditions, the disabled officer, firefighter, emergency medical technician or paramedic may be reemployed in *any position* other than the one he or she was employed at the time of disability retirement. This presumably would allow an employee to return to work in a different position within the same job classification. Thus, a “law enforcement officer” could return to work with the same employer as a “law enforcement officer” as long as that officer was assigned to a different position. The employee would continue to receive his or her in-line-of-duty disability retirement benefits while receiving a salary from subsequent employment. Minimum threshold disability benefits are not considered taxable income,<sup>6</sup> so an affected individual would receive a “tax-free” disability benefit of at least 65% of his or her average final compensation, in addition to any workers’ compensation benefit and/or social security benefit he or she would otherwise be entitled to, as well as any future salary he or she could earn while working in any position other than the one filled at the time of injury.

The bill increases the FRS contribution rates for the Special Risk Class from 17.37 percent to 17.68 percent (+0.31 percent) to fund the benefit improvement. As the affected special risk group is not treated as a separate subclass of the Special Risk Class, the higher contributions would be required for all special risk members, although the benefit improvement would only be available to a limited group.<sup>7</sup>

### **C. SECTION DIRECTORY:**

Section 1: Provides a short title.

Section 2: Provides a public purpose for the bill, and a declaration of important state interest.

---

<sup>5</sup> Section 121.091(4), F.S.

<sup>6</sup> Only that portion of the benefit that falls within the minimum benefit level—65 percent of AFC, in this case—is tax free; any person who receives a higher benefit based upon years of service must pay income taxes on the portion of the benefit received above the minimum benefit level.

<sup>7</sup> The bill currently excludes the following members of the Special Risk Class: correctional or forensic health care employees in specified positions with the Department of Corrections or the Department of Children and Families who spend 75 percent of their time performing duties involving contact with inmates or patients; youth custody officers employed by the Department of Juvenile Justice; and, forensic workers employed by a law enforcement agency or medical examiner’s office (included in the class by ch. 2005-167, L.O.F., effective October 1, 2005). The bill does not cover members of the Special Risk Administrative Support Class.

Section 3: Amends s. 121.091, F.S., relating to in-line-of-duty disability benefits and reemployment after retirement.

Section 4: Increases the employer contribution rates for the Special Risk Class by 0.31 percent.

Section 5: Provides a July 1, 2006, effective date.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

#### 1. Revenues:

The bill does not create, modify or eliminate a state revenue source.

#### 2. Expenditures:

Year 1	Year 2	Year 3 <sup>8</sup>
<u>FY 06/07</u>	<u>FY 07/08</u>	<u>FY 08/09</u>
\$2,786,000	\$2,897,000	\$3,012,880

### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

#### 1. Revenues:

The bill does not create, modify or eliminate a local revenue source.

#### 2. Expenditures:

Year 1	Year 2	Year 3 <sup>9</sup>
<u>FY 06/07</u>	<u>FY 07/08</u>	<u>FY 08/09</u>
\$7,176,000	\$7,463,000	\$7,762,000

### C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

This bill does not regulate the conduct of persons in the private sector.

### D. FISCAL COMMENTS:

The bill increases the FRS employer contribution rates for the Special Risk Class from 17.37 percent to 17.68 percent (+0.31 percent). This rate increase translates to a total first-year cost of \$9,962,000, with increasing costs each year thereafter. Costs are assumed to increase an additional four percent each year. The bill does not appropriate additional funding; therefore, costs will be absorbed within existing resources.

## III. COMMENTS

### A. CONSTITUTIONAL ISSUES:

#### 1. Applicability of Municipality/County Mandates Provision:

The mandates provision of s. 18 (a), Art. VII, of the State Constitution, applies because the bill increases the in-line-of-duty disability for certain officers, firefighters, emergency medical technicians

and paramedics, resulting in local government FRS participants being required to expend funds. However, the following exception applies:

- the bill contains a statement of important state interest; and
- similarly situated persons are required to comply.

2. Other:

### **Section 14, Art. X of the State Constitution**

Since 1976, the Florida Constitution has required that benefit improvements under public pension plans in the state of Florida must be concurrently funded on a sound actuarial basis, as set forth below:

SECTION 14. State retirement systems benefit changes.—A governmental unit responsible for any retirement or pension system supported in whole or in part by public funds shall not after January 1, 1977, provide any increase in the benefits to the members or beneficiaries of such system unless such unit has made or concurrently makes provision for the funding of the increase in benefits on a sound actuarial basis.

### **Part VII of ch. 112, Florida Statutes**

Section 14, Art. X, of the State Constitution is implemented by statute under part VII of ch. 112, F.S., the "Florida Protection of Public Employee Retirement Benefits Act," which establishes minimum standards for the operation and funding of public employee retirement systems and plans in the state of Florida. The key provision of this act states the legislative intent to "prohibit the use of any procedure, methodology, or assumptions the effect of which is to transfer to future taxpayers any portion of the costs which may reasonably have been expected to be paid by the current taxpayers."

#### **B. RULE-MAKING AUTHORITY:**

None.

#### **C. DRAFTING ISSUES OR OTHER COMMENTS:**

##### **Drafting Issues**

At the Governmental Operations Committee meeting on October 19, 2005, two issues were raised and drafting recommendations were made:

1) The bill creates disparate treatment of members within the Special Risk Class. As a result, the passage of this bill could jeopardize the qualified status of the entire retirement plan. A private letter ruling by the Internal Revenue Service (IRS) is suggested; however, the IRS cannot provide a ruling until passage of the bill. It is suggested that language be added to the bill that makes the benefits provided contingent upon a private letter ruling by the IRS.

2) In addition, the bill provides that a retired law enforcement officer, correctional officer, correctional probation officer, firefighter, emergency medical technician or paramedic may not be reemployed in the position he or she "held" at the time of the disabling illness or injury. According to the Department of Management Services, it is unclear whether a category two officer could be rehired as a category one officer or if both categories would fall under the phrase "position held." As such, it is recommended that the phrase be clarified.

##### **Other Comments**

Department of Management Services

According to the FRS consulting actuaries, changing the standard for total and permanent disability from inability to perform any form of employment to inability to perform one's current job, or a limited range of jobs, and shifting the burden of proof from the member to the plan administrator, would increase disability retirements and retirement costs. The higher costs would arise from members becoming eligible for in-line-of-duty disability benefits who would not be eligible for such benefits absent this proposal.<sup>10</sup>

The Department of Management Services has noted that disability coverage under the FRS is intended to provide income for members who are so physically or mentally impaired from injury or illness suffered while actively employed in a covered position that they can no longer be expected to earn income by gainful employment. If later employed, they are considered "recovered," and the disability benefit stops. This "total and permanent" disability eligibility standard—currently applied equitably across all plans and membership classes of the FRS—has not changed since the plan's inception in December 1970. By making it significantly easier for certain members of one class to both obtain and keep disability benefits, the bill has the potential to encourage fraud and abuse, the costs for which would ultimately be borne by the taxpayers of Florida. Effective elimination of the reemployment prohibition would exacerbate these problems.

By modifying qualification requirements to shift the burden of proof from the affected member to the administrator, the bill makes it far less likely that a disability application could be denied. The administrator would have to provide competent evidence to show that the applicant could indeed perform the duties of his/her current job. This would be exceedingly difficult, if not impossible. It is recommended that the Legislature consider amending the bill to reinstate the present proof requirement by eliminating the shift of burden of proof from the member to the administrator.

The Department of Management Services also has noted that, under current law, the affected special risk group is not treated as a separate category of the Special Risk Class. Therefore, under the existing structure of the FRS, all special risk employers would be required to pay increased rates as a result of this benefit improvement, while the liberalized disability standard would not be available to all special risk employees. As the bill does not cover all employee groups in the Special Risk Class, it effectively creates unequal subclasses within the Special Risk Class. Excluded groups could view this as discrimination, which could lead to dissension. Members of the Special Risk Class who are not included in the group proposed to be covered by the bill could argue that they should have been covered. The bill would set a precedent for other groups to seek equal treatment, whether they are Special Risk Class members not covered by HB 143 or members of other classes who are injured in the line of duty.<sup>11</sup>

Section 1. This act may be cited as the "Officer Malcolm Thompson Act."

Section 2. It is declared by the Legislature that firefighters, emergency medical technicians, paramedics, law enforcement officers, correctional officers, and correctional probation officers, as defined in this act, perform state and municipal functions; that it is their duty to protect life and

29 property at their own risk and peril; that it is their duty to

 47 (9) of section 121.091, Florida Statutes, are amended to read:

48 121.091 Benefits payable under the system.--Benefits may  
 49 not be paid under this section unless the member has terminated  
 50 employment as provided in s. 121.021(39)(a) or begun  
 51 participation in the Deferred Retirement Option Program as  
 52 provided in subsection (13), and a proper application has been  
 53 filed in the manner prescribed by the department. The department  
 54 may cancel an application for retirement benefits when the  
 55 member or beneficiary fails to timely provide the information  
 56 and documents required by this chapter and the department's

57 | rules. The department shall adopt rules establishing procedures  
 58 | for application for retirement benefits and for the cancellation  
 59 | of such application when the required information or documents  
 60 | are not received.

61 | (4) DISABILITY RETIREMENT BENEFIT.--

62 | (b) Total and permanent disability.--

63 | 1. Except as provided in subparagraph 2., a member shall  
 64 | be considered totally and permanently disabled if, in the  
 65 | opinion of the administrator, he or she is prevented, by reason  
 66 | of a medically determinable physical or mental impairment, from  
 67 | rendering useful and efficient service as an officer or  
 68 | employee.

69 | 2. A member of the Special Risk Class who is a law  
 70 | enforcement officer, firefighter, correctional officer,  
 71 | emergency medical technician, paramedic as described in s.  
 72 | 121.021(15)(c), or community-based correctional probation  
 73 | officer as described in s. 121.021(15)(d)1., shall be considered  
 74 | totally and permanently disabled in the line of duty if he or  
 75 | she is prevented, by reason of a medically determinable physical  
 76 | or mental impairment caused by a job-related injury, from  
 77 | performing useful and efficient service in the position held,  
 78 | unless the administrator can provide competent medical evidence  
 79 | to the contrary.

80 | (9) EMPLOYMENT AFTER RETIREMENT; LIMITATION.--

81 | (a)1. Except as provided in subparagraph 2., any person  
 82 | who is retired under this chapter, except under the disability  
 83 | retirement provisions of subsection (4), may be employed by an  
 84 | employer that does not participate in a state-administered

85 retirement system and may receive compensation from that  
 86 employment without limiting or restricting in any way the  
 87 retirement benefits payable to that person.

88 2. Any member of the Special Risk Class who retired under  
 89 the disability retirement provisions of subparagraph (4)(b)2.  
 90 may be reemployed by any employer not participating in a state-  
 91 administered retirement system in any position other than the  
 92 position in which he or she was employed at the time of the  
 93 disabling illness or injury and may receive compensation from  
 94 that employment without limiting or restricting in any way the  
 95 disability benefits payable to that person under the Florida  
 96 Retirement System.

97 (b)1.a. Except as provided in sub-subparagraph b., any  
 98 person who is retired under this chapter, except under the  
 99 disability retirement provisions of subsection (4), may be  
 100 reemployed by any private or public employer after retirement  
 101 and receive retirement benefits and compensation from his or her  
 102 employer without any limitations, except that a person may not  
 103 receive both a salary from reemployment with any agency  
 104 participating in the Florida Retirement System and retirement  
 105 benefits under this chapter for a period of 12 months  
 106 immediately subsequent to the date of retirement. However, a  
 107 DROP participant shall continue employment and receive a salary  
 108 during the period of participation in the Deferred Retirement  
 109 Option Program, as provided in subsection (13).

110 b. Any member of the Special Risk Class who retired under  
 111 the disability retirement provisions of subparagraph (4)(b)2.  
 112 may be reemployed by any employer participating in a state-

113 administered retirement system after having been retired for 1  
 114 calendar month, in accordance with s. 121.021(39). After 1  
 115 calendar month of retirement, any such retired member may be  
 116 reemployed in any position other than the one in which he or she  
 117 was employed at the time of disability retirement and may  
 118 receive compensation from that employment without limiting or  
 119 restricting in any way the retirement benefits payable to that  
 120 person under this chapter. Any retired member who is reemployed  
 121 within 1 calendar month after retirement shall void his or her  
 122 application for retirement benefits.

123         2. Any person to whom the limitation in subparagraph 1.  
 124 applies who violates such reemployment limitation and who is  
 125 reemployed with any agency participating in the Florida  
 126 Retirement System before completion of the 12-month limitation  
 127 period shall give timely notice of this fact in writing to the  
 128 employer and to the division and shall have his or her  
 129 retirement benefits suspended for the balance of the 12-month  
 130 limitation period. Any person employed in violation of this  
 131 paragraph and any employing agency which knowingly employs or  
 132 appoints such person without notifying the Division of  
 133 Retirement to suspend retirement benefits shall be jointly and  
 134 severally liable for reimbursement to the retirement trust fund  
 135 of any benefits paid during the reemployment limitation period.  
 136 To avoid liability, such employing agency shall have a written  
 137 statement from the retiree that he or she is not retired from a  
 138 state-administered retirement system. Any retirement benefits  
 139 received while reemployed during this reemployment limitation  
 140 period shall be repaid to the retirement trust fund, and

141 retirement benefits shall remain suspended until such repayment  
 142 has been made. Benefits suspended beyond the reemployment  
 143 limitation shall apply toward repayment of benefits received in  
 144 violation of the reemployment limitation.

145 3. A district school board may reemploy a retired member  
 146 as a substitute or hourly teacher, education paraprofessional,  
 147 transportation assistant, bus driver, or food service worker on  
 148 a noncontractual basis after he or she has been retired for 1  
 149 calendar month, in accordance with s. 121.021(39). A district  
 150 school board may reemploy a retired member as instructional  
 151 personnel, as defined in s. 1012.01(2)(a), on an annual  
 152 contractual basis after he or she has been retired for 1  
 153 calendar month, in accordance with s. 121.021(39). Any other  
 154 retired member who is reemployed within 1 calendar month after  
 155 retirement shall void his or her application for retirement  
 156 benefits. District school boards reemploying such teachers,  
 157 education paraprofessionals, transportation assistants, bus  
 158 drivers, or food service workers are subject to the retirement  
 159 contribution required by subparagraph 7.

160 4. A community college board of trustees may reemploy a  
 161 retired member as an adjunct instructor, that is, an instructor  
 162 who is noncontractual and part-time, or as a participant in a  
 163 phased retirement program within the Florida Community College  
 164 System, after he or she has been retired for 1 calendar month,  
 165 in accordance with s. 121.021(39). Any retired member who is  
 166 reemployed within 1 calendar month after retirement shall void  
 167 his or her application for retirement benefits. Boards of  
 168 trustees reemploying such instructors are subject to the

169 retirement contribution required in subparagraph 7. A retired  
 170 member may be reemployed as an adjunct instructor for no more  
 171 than 780 hours during the first 12 months of retirement. Any  
 172 retired member reemployed for more than 780 hours during the  
 173 first 12 months of retirement shall give timely notice in  
 174 writing to the employer and to the division of the date he or  
 175 she will exceed the limitation. The division shall suspend his  
 176 or her retirement benefits for the remainder of the first 12  
 177 months of retirement. Any person employed in violation of this  
 178 subparagraph and any employing agency which knowingly employs or  
 179 appoints such person without notifying the Division of  
 180 Retirement to suspend retirement benefits shall be jointly and  
 181 severally liable for reimbursement to the retirement trust fund  
 182 of any benefits paid during the reemployment limitation period.  
 183 To avoid liability, such employing agency shall have a written  
 184 statement from the retiree that he or she is not retired from a  
 185 state-administered retirement system. Any retirement benefits  
 186 received by a retired member while reemployed in excess of 780

 259 apply toward repayment of benefits received in violation of the  
 260 780-hour reemployment limitation.

261 7. The employment by an employer of any retiree or DROP  
 262 participant of any state-administered retirement system shall  
 263 have no effect on the average final compensation or years of  
 264 creditable service of the retiree or DROP participant. Prior to  
 265 July 1, 1991, upon employment of any person, other than an  
 266 elected officer as provided in s. 121.053, who has been retired  
 267 under any state-administered retirement program, the employer  
 268 shall pay retirement contributions in an amount equal to the  
 269 unfunded actuarial liability portion of the employer  
 270 contribution which would be required for regular members of the  
 271 Florida Retirement System. Effective July 1, 1991, contributions

 279 Retirement System as provided in s. 121.053(1)(b) or, if holding  
 280 an elective public office that does not qualify for the Elected

281 Officers' Class on or after July 1, 1991, shall be enrolled in  
 282 the Florida Retirement System as provided in s. 121.122, and  
 283 shall continue to receive retirement benefits as well as  
 284 compensation for the elected officer's service for as long as he  
 285 or she remains in elective office. However, any retired member  
 286 who served in an elective office prior to July 1, 1990,  
 287 suspended his or her retirement benefit, and had his or her  
 288 Florida Retirement System membership reinstated shall, upon  
 289 retirement from such office, have his or her retirement benefit  
 290 recalculated to include the additional service and compensation  
 291 earned.

292 9. Any person who is holding an elective public office  
 293 which is covered by the Florida Retirement System and who is  
 294 concurrently employed in nonelected covered employment may elect  
 295 to retire while continuing employment in the elective public  
 296 office, provided that he or she shall be required to terminate  
 297 his or her nonelected covered employment. Any person who  
 298 exercises this election shall receive his or her retirement  
 299 benefits in addition to the compensation of the elective office  
 300 without regard to the time limitations otherwise provided in  
 301 this subsection. No person who seeks to exercise the provisions  
 302 of this subparagraph, as the same existed prior to May 3, 1984,  
 303 shall be deemed to be retired under those provisions, unless  
 304 such person is eligible to retire under the provisions of this  
 305 subparagraph, as amended by chapter 84-11, Laws of Florida.

306 10. The limitations of this paragraph apply to  
 307 reemployment in any capacity with an "employer" as defined in s.  
 308 121.021(10), irrespective of the category of funds from which

309 the person is compensated.

310 11. Except as provided in subparagraph 12., an employing  
 311 agency may reemploy a retired member as a firefighter or  
 312 paramedic after the retired member has been retired for 1  
 313 calendar month, in accordance with s. 121.021(39). Any retired  
 314 member who is reemployed within 1 calendar month after  
 315 retirement shall void his or her application for retirement  
 316 benefits. The employing agency reemploying such firefighter or  
 317 paramedic is subject to the retirement ~~retired~~ contribution  
 318 required in subparagraph 7. ~~8.~~ Reemployment of a retired  
 319 firefighter or paramedic is limited to no more than 780 hours  
 320 during the first 12 months of his or her retirement. Any retired  
 321 member reemployed for more than 780 hours during the first 12  
 322 months of retirement shall give timely notice in writing to the  
 323 employer and to the division of the date he or she will exceed  
 324 the limitation. The division shall suspend his or her retirement  
 325 benefits for the remainder of the first 12 months of retirement.  
 326 Any person employed in violation of this subparagraph and any  
 327 employing agency which knowingly employs or appoints such person  
 328 without notifying the Division of Retirement to suspend  
 329 retirement benefits shall be jointly and severally liable for  
 330 reimbursement to the Retirement System Trust Fund of any  
 331 benefits paid during the reemployment limitation period. To  
 332 avoid liability, such employing agency shall have a written  
 333 statement from the retiree that he or she is not retired from a  
 334 state-administered retirement system. Any retirement benefits  
 335 received by a retired member while reemployed in excess of 780  
 336 hours during the first 12 months of retirement shall be repaid

337 | to the Retirement System Trust Fund, and retirement benefits  
338 | shall remain suspended until repayment is made. Benefits  
339 | suspended beyond the end of the retired member's first 12 months  
340 | of retirement shall apply toward repayment of benefits received  
341 | in violation of the 780-hour reemployment limitation.

342 |       12. An employing agency may reemploy a retired member who  
343 | retired under the disability provisions of subparagraph (4)(b)2.  
344 | as a law enforcement officer, firefighter, correctional officer,

346 | correctional probation officer after the retired member has been  
347 | retired for 1 calendar month, in accordance with s. 121.021(39).  
348 | Such retired member may not be reemployed with any employer in  
349 | the position he or she held at the time of the disabling illness  
350 | or injury. Any retired member who is reemployed within 1  
351 | calendar month after retirement shall void his or her  
352 | application for retirement benefits. The employing agency  
353 | reemploying such a member is subject to the retirement  
354 | contribution required in subparagraph 7.

355 |       Section 4. Effective July 1, 2006, in order to fund the  
356 | benefit improvements provided in s. 121.091, Florida Statutes,  
357 | as amended by this act, the contribution rate that applies to  
358 | the Special Risk Class of the defined benefit program of the  
359 | Florida Retirement System shall be increased by 0.31 percentage  
360 | points. This increase shall be in addition to all other changes  
361 | to such contribution rates which may be enacted into law to take  
362 | effect on that date. The Division of Statutory Revision is

**SUMMARY ANALYSIS**

Chapter 479, F.S., regulates billboards and other forms of outdoor advertising signs. Advertising companies and other owners of outdoor signs must be licensed by the Florida Department of Transportation (FDOT) and obtain permits that regulate height, size and other characteristics of the billboards. County and municipal governments are not precluded from enacting local ordinances regulating outdoor advertising, but these regulations must be in harmony with state and federal requirements.

HB 273 would make significant changes to two sections of law in chapter 479, F.S. The bill would:

- Allow FDOT and sign owners to enter into agreements identifying the specific location of a billboard's "view zone," meaning an unobstructed view by passing motorists, and specify in statute the standard dimensions of a view zone.
- Prohibit trees and other vegetation that are part of a beautification project from being planted in a billboard's view zone.
- Require any governmental entity violating the view zone provisions to pay the sign owner a penalty equal to the lesser of either lost revenue because the sign was blocked or the sign's fair market value.
- Allow the owner of a lawfully erected billboard that conforms to state and federal requirements for land-use, size, height, and spacing to elevate the billboard at its permitted location if a sound wall blocks or screens the signage.
- Delete references to the Federal Highway Administration's approval before raising the height of a non-conforming billboard along a federal-aid primary highway.
- Specify that a billboard reconstructed so it can be raised above a sound wall must comply with the Florida Building Code standards and wind-load requirements.
- Require local governments and local jurisdictions to issue permits, if necessary, to reconstruct a sign pursuant to these proposed changes in law. Local governments and local jurisdictions that refuse to issue such permits shall pay just compensation to the sign's owner.

HB 273 raises no apparent constitutional issues. The bill has no immediate financial impact on the state or on local governments, and will not fiscally impact these governmental entities unless they refuse to allow the specified view zones and increases in sign height, and are required to pay penalties or compensation to the sign owners.

HB 273 would take effect upon becoming law.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

**Provide Limited Government/Safeguard Individual Liberty** – HB 273 prohibits trees and other vegetation that are part of a “beautification project” from being planted in a legally erected and permitted billboard’s view zone. The bill requires any governmental entity violating the view zone provisions to pay the sign owner a penalty equal to the lesser of lost revenue because the sign was blocked or the sign’s fair market value. Additionally, the bill allows the owner of a lawfully erected billboard conforming to state and federal requirements for land-use, size, height, and spacing, to increase the billboard’s height at its permitted location if a noise wall blocks or screens the signage. The bill requires local governments and local jurisdictions to issue permits, if necessary, to reconstruct a sign pursuant to this section of law. Local governments and local jurisdictions that refuse to issue such permits shall pay just compensation to the sign’s owners.

#### B. EFFECT OF PROPOSED CHANGES:

##### Current Situation

Florida has an estimated 20,900 permitted outdoor advertising signs on 13,700 billboard structures. About 5,900 are considered by FDOT as lawful, non-conforming signs, meaning they were in compliance with federal, state, and, if applicable, local regulations when they were erected, but are not in compliance with current regulations.

Chapter 479, F.S., governs billboards and other forms of outdoor advertising. Advertising companies and other owners of outdoor signs must be licensed by FDOT and obtain permits, regulating height, size and other characteristics of the billboards. The majority of the provisions specify DOT’s duties and authority as they relate to permitting, removing, and otherwise regulating billboards along the interstate highway system and the federal–aid primary highway system, which includes state roads. The chapter also addresses ways to accommodate billboard owners whose signs’ “view zones” are affected by highway beautification projects, such as planting of vegetation, and highway widening or other improvements.

Because federal dollars are used to build and maintain these federal and state roads in Florida, FDOT must adhere to federal laws and regulations concerning billboards. The Highway Beautification Act of 1965 (chapter 23 U.S. Code section 131), chapter 23 Code of Federal Regulations section 750, and Federal Highway Administration (FHWA) Policy Guidance relate to the regulation of billboards. Under federal law, regulation, and policy guidance:

- To be able to remain, nonconforming signs must remain substantially the same as they were on the effective date of the state law or regulations that made them nonconforming.
- Reasonable repair and maintenance of the sign, including a change of advertising message, is allowable.
- Nonconforming signs may continue as long as they are not destroyed, abandoned, or discontinued. States may pass laws for exceptions to be made for nonconforming signs destroyed due to vandalism and other criminal or tortious acts.
- Each state must develop its own criteria to determine when customary maintenance ceases and a substantial change has occurred which would terminate nonconforming rights. When nonconforming rights are terminated under state law, the sign must be removed as an illegal sign without compensation.
- However, lawfully erected signs, even if they are now nonconforming, cannot be removed by a state without payment of just compensation.

Under state law, local governments also may not remove, or order to be removed, lawfully erected signs along the interstate or federal-aid highways without paying the signs' owners just compensation.

A March 2005 memorandum from the FHWA addressed a relatively new issue relating to nonconforming signs – conflicts between sign owners and state transportation agencies over noise attenuation barriers (or “sound walls”) along highways that are blocking billboards. The memorandum concluded that allowing owners of non-conforming billboards to increase the signs' height in such circumstances is inconsistent with federal law and regulations.<sup>1</sup>

Current state law clarifies that nothing in chapter 479, F.S., prevents FDOT or other governmental entities from entering into an agreement with a sign owner increasing the height of a lawfully erected sign at its permitted location if a noise-attenuation barrier, visibility screen, or other highway improvement is erected in such a way as to screen or block the sign's visibility. Under such agreements, the affected sign's height can be increased only as much as is necessary to achieve the same degree of visibility from the road as it had previously. If the affected sign is non-conforming and it is located along a federal aid primary highway system (which includes most of Florida's major highways), the FHWA must approve the agreement.

### Effect of Proposed Changes

HB 273 amends two sections of chapter 479, F.S., related to visibility and height of lawfully permitted billboards.

Specifically, the bill amends s. 479.106, F.S., to:

- Codify FDOT rules on the “view zone” dimensions of lawfully permitted billboards. It establishes in statute how a view zone is to be measured: the first 500 linear feet within the first 1,000 feet as measured along the edge of the pavement in the direction of approaching traffic from a point on the edge of the pavement perpendicular to the sign's edge facing the highway. The dimensions are in FDOT's outdoor advertising rule, chapter 14-40.030, Florida Administrative Code.
- Specify that a billboard's view zone shall be a continuous 500 feet unless interrupted by naturally occurring vegetation.
- Allow FDOT and sign owners to enter into agreements identifying the “specific location” of a billboard's view zone, and if no agreement is reached, then the view zone is the first continuous 500 linear feet from the sign.
- Prohibit trees and other vegetation that are part of a “beautification project” from being planted in a legally erected and permitted billboard's view zone.
- Require any governmental entity violating the view zone provisions to pay the sign owner a penalty equal to the lesser of lost revenue because the sign was blocked or the sign's fair market value.

The bill also amends s. 479.25, F.S., to:

- Allow the owner of a lawfully erected billboard conforming to state and federal requirements for land-use, size, height, and spacing, to increase the billboard's height at its permitted location if a noise wall blocks or screens the signage. Existing references to visibility screen or other highway improvement are deleted.
- Clarify that in such circumstances, the billboard may be elevated as high as is necessary – even if that means exceeding the state limits of 50 feet high outside an incorporated area and 65 feet high within an incorporated area – so that its visibility is the same as it was before the noise wall was built.

<sup>1</sup> U.S. DOT /FHWA memorandum from Susan Lauffer, director of Office of Real Estate Services to Division Administrators and Directors of Field Services, dated March 8, 2005.

- Delete references to FHWA approval before raising the height of a non-conforming billboard along a federal aid primary highway. This would make Florida law consistent with current federal guidance that non-conforming billboards along federal-aid highways can not be raised.
- Specify that a billboard reconstructed under this section of law must comply with the Florida Building Code standards and wind load requirements.
- Require local governments and local jurisdictions to issue permits, if necessary, to reconstruct a sign pursuant to this section of law. Local governments and local jurisdictions that refuse to issue such permits shall pay just compensation to the sign's owner.

HB 273 takes effect upon becoming law.

**C. SECTION DIRECTORY:**

- Section 1:** Amends s. 479.106, F.S., to codify view zone dimensions and method for determining the view zone; and specifies penalties.
- Section 2:** Amends s. 479.25, F.S., to clarify under what circumstances lawfully erected, conforming billboards may be raised; deletes obsolete language; and provides for payment of just compensation for refusal to issue permits.
- Section 3:** Specifies this act shall take effect upon becoming a law.

**II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT**

**A. FISCAL IMPACT ON STATE GOVERNMENT:**

1. Revenues:  
None.
2. Expenditures:  
No direct or immediate impact. But see "D. FISCAL COMMENTS" below.

**B. FISCAL IMPACT ON LOCAL GOVERNMENTS:**

1. Revenues:  
None.
2. Expenditures:  
No direct or immediate impact. But see "D. FISCAL COMMENTS" below.

**C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:**

No direct or immediate impact. But see "D. FISCAL COMMENTS" below.

**D. FISCAL COMMENTS:**

In the event FDOT or a local governmental entity violates the proposed view zone provisions in s. 479,106, F.S., it would have to pay the sign owner a penalty equal to the lesser of the lost revenue from the screened or blocked billboard or the fair market value of the sign.

Additionally, a local governmental entity that refused to permit reconstruction of a conforming billboard to raise its height above a noise wall would have to pay the sign owner just compensation. A governmental entity violating these two provisions also may have to pay legal costs and expenses if the issue is litigated.

 26   Be It Enacted by the Legislature of the State of Florida:

27  
 28           Section 1. Subsection (6) of section 479.106, Florida  
 29   Statutes, is amended to read:

30 479.106 Vegetation management.--  
 31 (6) Beautification projects, trees, or other vegetation  
 32 shall not be planted or located in the view zone of an area which  
 33 will screen from view legally erected and permitted outdoor  
 34 advertising signs which have been permitted prior to the date of  
 35 the beautification project or other planting, where such planting  
 36 will, at the time of planting or after future growth, screen such  
 37 sign from view. For the State Highway System and expressways, the  
 38 view zone shall consist of 500 linear feet within the first 1,000  
 39 feet as measured along the edge of the pavement in the direction  
 40 of approaching traffic from a point on the edge of the pavement  
 41 perpendicular to the edge of the sign facing nearest the highway.  
 42 For the State Highway System and expressways, the view zone shall  
 43 be a continuous 500 linear feet unless interrupted by existing,  
 44 naturally occurring vegetation. The department and the sign owner  
 45 may enter into an agreement identifying the specific location of  
 46 the view zone for each sign facing. In the absence of such  
 47 agreement, the view zone shall be defined as the first continuous  
 48 500 linear feet from the sign. Any governmental entity or other  
 49 party violating this subsection shall pay to the sign owner a  
 50 penalty equal to the lesser of the revenue from the sign lost  
 51 during the time of the screening or the fair market value of the  
 52 sign.

53 Section 2. Section 479.25, Florida Statutes, is amended to  
 54 read:

55 479.25 Application of chapter.--The owner of a lawfully  
 56 erected sign that is governed by and conforms to state and  
 57 federal requirements for land use, size, height, and spacing may  
 58 increase the height above ground level of such sign ~~This chapter~~

59 ~~does not prevent a governmental entity from entering into an~~  
 60 ~~agreement allowing the height above ground level of a lawfully~~  
 61 ~~erected sign to be increased at its permitted location if a~~  
 62 ~~noise-attenuation barrier, visibility screen, or other highway~~  
 63 ~~improvement is permitted by or erected by any governmental entity~~  
 64 ~~in such a way as to screen or block visibility of the sign.~~  
 65 ~~However, if a nonconforming sign is located on the federal-aid~~  
 66 ~~primary highway system, as such system existed on June 1, 1991,~~  
 67 ~~or on any highway that was not a part of such system as of that~~  
 68 ~~date but that is or becomes after June 1, 1991, a part of the~~  
 69 ~~National Highway System, the agreement must be approved by the~~  
 70 ~~Federal Highway Administration. Any increase in height permitted~~  
 71 ~~under this section may only be the increase in height which is~~  
 72 ~~required to achieve the same degree of visibility from the right-~~  
 73 ~~of-way which the sign had prior to the construction of the noise-~~

BILL #: HB 333 Public Food Service Establishments

Table with 4 columns: REFERENCE, ACTION, ANALYST, STAFF DIRECTOR. Row 1: Business Regulation Committee, 14 Y, 1 N, Watson, Liepshutz. Row 2: Local Government Council, Nelson, Hamby.

SUMMARY ANALYSIS

This bill creates a three-year pilot program authorizing municipalities to adopt an ordinance establishing procedures for public food service establishments to apply for a limited exemption from existing Florida Department of Business and Professional Regulation (DBPR) rules.

The bill provides minimum requirements for permit applications and safety and sanitation regulations to be implemented by the municipalities; provides for state assistance in the development of enforcement procedures and regulations; provides an effective date of July 1, 2006, and for automatic repeal if not renewed by July 1, 2009.

This bill will have an indeterminate effect on municipalities and restaurants that choose to participate relating to permitting revenues and fees and regulatory compliance. DBPR estimates a non-recurring cost of \$74,673 and recurring costs of \$613,009 that will increase slightly each year to implement the bill.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

Less Government: This bill increases the number of governmental bodies that have regulatory authority over health guidelines for public food service establishments. DBPR represents that the bill will indirectly require the need for more government employees.

Individual Liberty: This bill increases commercial and individual liberty by allowing public food service establishments and individuals the ability to choose to bring dogs into outdoor areas of such establishments if their municipality passes an appropriate ordinance.

#### B. EFFECT OF PROPOSED CHANGES:

##### Present Situation

The legislature requires the Division of Hotels and Restaurants of the Florida Department of Business and Professional Regulation (the "Division") to administer laws and rules relating to the inspection and regulation of food service establishments for the purpose of safeguarding the public health, safety and welfare. Section 509.032(7), F.S., expressly limits the general home rule powers of a local government as it relates to the regulation of such businesses.

Pursuant to its rulemaking authority, the Division has adopted the 2001 Food Code published by the U.S. Food and Drug Administration (FDA). The Food Code is a reference document that "provides practical, science-based guidance and manageable, enforceable provisions for mitigating risk factors known to cause foodborne illness."<sup>1</sup> Section 6-501.115 of the Code generally prohibits live animals on the premises of food service establishments. "Premises" is defined to mean "[t]he physical facility, its contents, and the contiguous land or property...."<sup>2</sup> There are limited exceptions to this prohibition including those for patrol dogs accompanying police or security officers and service animals controlled by disabled persons.<sup>3</sup>

##### Effect of Proposed Changes

This bill creates a three-year pilot program that would permit patrons' dogs within designated outdoor areas of food service establishments. The bill grants municipalities the authority to establish a local exemption procedure, by ordinance, to current Division rules that prohibit dogs on the premises of food service establishments. Interested establishments are required to apply for and receive a permit from the governing body of their municipality. Minimum requirements for the information supplied in the application process are outlined in the bill.

The bill also sets forth specific regulations that must be included in all permits issued by participating municipalities. The regulations include various restrictions on the dogs' mobility, sanitation measures to reduce health risks posed by dogs, and signs notifying guests and employees of applicable rules and procedures. The bill also allows municipalities to include additional regulations and limitations in the permits to protect the health, safety and general welfare of the public. Municipalities are granted powers reasonably necessary to regulate and enforce this bill. The Division of Hotels and Restaurants is directed to provide reasonable assistance to participating municipalities in the development of enforcement procedures and regulations.

The act has an effective date of July 1, 2006, and expires on July 1, 2009, unless reenacted by the legislature.

## C. SECTION DIRECTORY

### Section 1

Creates s. 509.233, FS. Provides findings and intent, authorizes local exemption, provides limits on the exemption and permit requirements, grants enforcement powers, provides for state assistance, and provides for automatic repeal unless renewed.

### Section 2

Provides an effective date.

## II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

### A. FISCAL IMPACT ON STATE GOVERNMENT:

#### 1. Revenues:

The bill does not impact state revenues.

#### 2. Expenditures:

The Department of Business and Professional Regulation represents that implementation of this bill would require \$74,673 in non-recurring costs to the department, and \$613,039 in recurring costs that would increase slightly each year. The recurring costs include the addition of eight full time employees to assist municipalities in the development of regulations, handle an increased volume of calls to the DBPR's Customer Call Center, and to compensate for the additional time required to inspect exempted restaurants.

Also, the Department of Health (DOH) has stated that it may experience an increase in foodborne illness complaint investigations. While the DOH indicates that this is speculative and difficult to quantify, it has estimated that the bill could result in an increase in investigations of up to 2.5 percent resulting in yearly additional costs of approximately \$13,187.

### B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

#### 1. Revenues:

This bill has the potential to increase fees for participating municipalities through the permitting process.

#### 2. Expenditures:

This bill has the potential to create an indeterminate impact upon expenditures associated with monitoring and enforcement in municipalities that choose to participate.

### C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

Establishments electing to participate will incur indeterminate costs associated with compliance to the signage and sanitation requirements, and possibly training costs for personnel.

### D. FISCAL COMMENTS: None.

### III. COMMENTS

#### A. CONSTITUTIONAL ISSUES:

##### 1. Applicability of Municipality/County Mandates Provision:

This bill does not require counties or municipalities to take an action requiring the expenditure of funds, nor does it reduce the authority that counties or municipalities have to raise revenue in the aggregate, nor does it reduce the percentage of state tax shared with counties or municipalities.

2. Other: None.

#### B. RULE-MAKING AUTHORITY: None.

#### C. DRAFTING ISSUES OR OTHER COMMENTS:

##### Drafting Issues

The proposed language specifically references the 2001 FDA Food Code. If the DBPR decides to adopt the recently published 2005 Food Code or some other guideline, a resulting statute would require amending.

##### Other Comments

#### **Florida Department of Business and Professional Regulation**

Protecting the health (a condition of optimal well-being), safety (freedom from danger, risk or injury), and welfare (health, happiness and general well-being) of the public requires the Division to adopt rules that provide the greatest protection to the greatest amount of people possible. The FDA Food Code is scientifically-based and "represents FDA's best advice for a uniform system of provisions that address the safety and protection of food offered . . . in food service." (2001 FDA Food Code) For this reason, the Division adopted the FDA Food Code as the statewide food service standard.

The 2001 FDA Food Code defines "critical" as "a provision of this Code that, if in noncompliance, is more likely than other violations to contribute to food contamination, illness, or environmental health hazard." The FDA Food Code identifies live animals in public food service establishments as critical. The risks associated with allowing animals, including dogs, in public food service establishments illustrates the critical nature of the issue.

This bill would reduce the ability of the Division to protect the public's health, safety and welfare by introducing potential contaminants and safety hazards into public food service establishments. Animals carry disease-causing organisms which can be transmitted to humans through direct and indirect contamination of food and food-contact surfaces. Diseases carried by animals have caused infectious disease outbreaks, including Escherichia coli, Salmonella, Coxiella burnetti, Mycobacterium tuberculosis and ringworm. Exposure to rabies is also a concern. Diseases can be spread to humans through an animal's saliva, urine, fecal matter, fur and skin. This bill does not address the presence of unhealthy dogs in public food service establishments or any form of regulation of current immunization status. This bill does provide for hand washing by employees, signage requiring hand washing, and requires hand sanitizer at each table in the designated area. However, there is no way to ensure patrons will follow the sanitation recommendations.

This bill would reduce public safety by introducing potential environmental hazards. Allergies can be associated with dander, fur, body wastes and saliva. Dogs also present an increased risk of bites, kicks, falls, scratches and other forms of aggression.

The bill does not establish any caps on monetary fees charged by local governments for the variance.

Finally, an opportunity for each individual municipality to adopt and enforce regulations would be created, resulting in multiple ordinances and jurisdictions throughout the state. Statewide, uniform jurisdiction is an integral component of attaining federal standardization. Providing for an exemption to the 2001 FDA Food Code would undermine efforts to achieve statewide standardization, as the federal standards would no longer be met. It would also create precedent for allowing "local preference" regarding technical food safety requirements. The Division would be required to assist municipalities with development of the exemption process and enforcement. The mandated state assistance would divert state resources from core mission, potentially reducing the effectiveness of the division in protecting the health, safety and welfare of the public.

### **Florida Department of Health**

The Florida Department of Health (DOH) regulates food service establishments other than those addressed in the bill, in accordance with s. 381.0072, F.S. Food service establishments regulated by the DOH include detention facilities, child care facilities, schools, institutions, civic or fraternal organizations, bars and lounges, facilities used at temporary food events, mobile food units, and vending machines at any facility regulated under this section. Section 64E-11.008(8), F.A.C., prohibits animals from food service establishments regulated by the DOH, except for animals for the disabled as provided for in ch. 413.08, F.S. This standard is used in all 50 states and by the FDA.

As indicated in the bill, s. 509.032, F.S., requires the DOH to work with DBPR to perform epidemiological investigations in public food service establishments as the result of foodborne illnesses. This bill increases the risk of foodborne illness transmitted through dogs both directly and indirectly as a result of increased risk of unsanitary conditions, and it is anticipated that there may be an resulting increase in foodborne illness complaint investigations.

The DOH has concerns that the bill will significantly increase the risk of foodborne illness, especially in populations most susceptible, i.e., the elderly, young, and immune compromised. Additionally, the bill seeks to use hand sanitizers as a public health intervention. Currently, DOH follows the recommendations of the CDC and FDA that advise that hand sanitizers are not intended as a substitute for handwashing in food service establishments. Further, hand sanitizers are only effective against specific types of organisms and are not appropriate for high bacterial loads or viruses. Therefore, solely providing patrons with hand sanitizers for use after contact with dogs may be ineffective in adequately removing contaminants from the hands.

Additionally, the bill does not appear to address:

- varying levels of obedience among dogs and their propensity for confrontation both with other dogs (which could result in widespread contamination) and other patrons (which could result in dog bites);
- the restriction of animals from the inside dining areas, even when it is the only route of access to the designated dog-allowed, outdoor area;
- required intervention, such as vaccination, to prevent the possible spread for rabies and other zoonotic diseases;
- the recognition of the male dog's propensity for territorial marking through urination;
- employees incidental (and un-solicited) contact with dogs that result in a soiled and contaminated uniform; and

- oversight of this initiative by officials trained in public health who are accustomed to ensuring that plans, locations, and processes have effective barriers against microbiological and environmental contaminants.

A bill to be entitled  
 An act relating to public food service establishments;  
 creating s. 509.233, F.S.; providing legislative findings  
 and intent; creating a pilot program; authorizing  
 municipalities to adopt an ordinance establishing a local  
 exemption to certain provisions of general law and agency  
 rules relating to public food service establishments in  
 order to permit patrons' dogs at certain designated  
 outdoor portions of such establishments; providing for  
 implementation and enforcement procedures; providing for  
 state assistance; providing for future review and repeal;  
 providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 509.233, Florida Statutes, is created  
 to read:

509.233 Public food service establishment requirements;  
 local exemption for dogs in designated outdoor portions; pilot  
 program.--

(1) FINDINGS AND INTENT.--

(a) The Legislature finds and declares the following:

1. This chapter requires the division to carry out all  
 laws and rules relating to the inspection and regulation of  
 public food service establishments for the purpose of  
 safeguarding the public health, safety, and welfare.

2. Section 509.013(5) defines the term "public food  
 service establishment" as "any building, vehicle, place, or

29 structure, or any room or division of a building, vehicle,  
 30 place, or structure where food is prepared, served, or sold for  
 31 immediate consumption on or in the vicinity of the premises;  
 32 called for or taken out by customers; or prepared prior to being  
 33 delivered to another location for consumption."

34 3. Section 509.032 requires the division to adopt and  
 35 enforce such rules as are necessary to ensure the protection of  
 36 the public from food-borne illness in public food service  
 37 establishments.

38 4. Section 509.032 further requires the division to adopt  
 39 such rules in order to "provide the standards and requirements  
 40 for obtaining, storing, preparing, processing, serving, or  
 41 displaying food in public food service establishments, approving  
 42 public food service establishment facility plans, conducting  
 43 necessary public food service establishment inspections for  
 44 compliance with sanitation regulations, cooperating and  
 45 coordinating with the Department of Health in epidemiological  
 46 investigations, and initiating enforcement actions, and for  
 47 other such responsibilities deemed necessary by the division."

48 5. Pursuant to the grant of rulemaking authority cited in  
 49 subparagraph 4., the division has adopted chapter 61C-4, Florida  
 50 Administrative Code, concerning public food service  
 51 establishments.

52 6. Section 61C-4.010, Florida Administrative Code,  
 53 concerning the sanitation and safety requirements of public food  
 54 service establishments, includes section 61C-4.010(6), relating  
 55 to physical facilities, which adopts by reference chapter 6 of  
 56 the 2001 FDA Food Code as developed by the Food and Drug

57 Administration of the United States Department of Health and  
58 Human Services.

59 7. Section 6-501.115, 2001 FDA Food Code, generally  
60 prohibits live animals from public food service establishments.

61 8. Section 509.032(7) expressly preempts to the state  
62 regulation of public lodging establishments and public food  
63 service establishments for compliance with the sanitation  
64 standards adopted by the division.

65 9. Section 509.032(7) expressly limits the general home  
66 rule powers of local governments as it relates to the regulation  
67 of public food service establishments.

68 10. The purpose of this section is to allow participating  
69 municipalities to enact an ordinance establishing procedures by  
70 which public food service establishments could exempt their  
71 establishments from section 6-501.115, 2001 FDA Food Code, and  
72 allow patrons' dogs within certain designated outdoor portions  
73 of their respective establishments.

74 (b) It is therefore the intent of the Legislature by this  
75 section to establish a 3-year pilot program for municipalities  
76 to allow patrons' dogs within certain designated outdoor  
77 portions of public food service establishments.

78 (2) LOCAL EXEMPTION AUTHORIZED.--The governing body of a  
79 municipality participating in the pilot program is authorized to  
80 establish, by ordinance, a local exemption procedure to section  
81 6-501.115, 2001 FDA Food Code, as adopted and incorporated by  
82 the Division of Hotels and Restaurants at chapter 61C-4.010(6),  
83 Florida Administrative Code.

84 (3) LOCAL DISCRETION; CODIFICATION.--

85 (a) The adoption of the local exemption procedure shall be  
 86 at the sole discretion of the governing body of a participating  
 87 municipality. Nothing in this section shall be construed to  
 88 require or compel a municipal governing body to adopt an  
 89 ordinance pursuant to this section.

90 (b) Any ordinance adopted pursuant to this section shall  
 91 provide for codification within the land development code of a  
 92 participating municipality.

93 (4) LIMITATIONS ON EXEMPTION; PERMIT REQUIREMENTS.--

94 (a) Any local exemption procedure adopted pursuant to this  
 95 section shall only provide a variance to section 6-501.115, 2001  
 96 FDA Food Code, to allow patrons' dogs within certain designated  
 97 outdoor portions of public food service establishments.

98 (b) In order to protect the health, safety, and general  
 99 welfare of the public, the local exemption procedure shall  
 100 require participating public food service establishments to  
 101 apply for and receive a permit from the governing body of the  
 102 municipality before allowing patrons' dogs on their premises.  
 103 The municipality shall require such information from the  
 104 applicant as the municipality deems reasonably necessary to  
 105 enforce the provisions of this section, but shall require, at a  
 106 minimum, the following information:

107 1. Name, location, and mailing address of the public food  
 108 service establishment.

109 2. Name, mailing address, and telephone contact  
 110 information of the permit applicant.

111 3. A diagram and description of the outdoor area to be  
 112 designated as available to patrons' dogs, including dimensions

113 of the designated area; a depiction of the number and placement  
 114 of tables, chairs, and restaurant equipment, if any; the  
 115 entryways and exits to the designated outdoor area; the  
 116 boundaries of the designated area and of other areas of outdoor  
 117 dining not available for patrons' dogs; any fences or other  
 118 barriers; surrounding property lines and public rights-of-way,  
 119 including sidewalks and common pathways; and such other  
 120 information reasonably required by the permitting authority. The  
 121 diagram or plan shall be accurate and to scale but need not be  
 122 prepared by a licensed design professional.

123 4. A description of the days of the week and hours of  
 124 operation that patrons' dogs will be permitted in the designated  
 125 outdoor area.

126 (c) In order to protect the health, safety, and general  
 127 welfare of the public, the local exemption ordinance shall  
 128 include such regulations and limitations as deemed necessary by  
 129 the participating municipality and shall include, but not be  
 130 limited to, the following requirements:

131 1. All public food service establishment employees shall  
 132 wash their hands promptly after touching, petting, or otherwise  
 133 handling dogs. Employees shall be prohibited from touching,  
 134 petting, or otherwise handling dogs while serving food or  
 135 beverages or handling tableware or before entering other parts  
 136 of the food service establishment.

137 2. Patrons in a designated outdoor area shall be advised  
 138 that they should wash their hands before eating. Waterless hand  
 139 sanitizer shall be provided at all tables in the designated  
 140 outdoor area.

141 3. Employees and patrons shall be instructed that they  
 142 shall not allow dogs to come into contact with serving dishes,  
 143 utensils, tableware, linens, paper products, or any other items  
 144 involved with food service operations.

145 4. Patrons shall keep their dogs on a leash at all times  
 146 and shall keep their dogs under reasonable control.

147 5. Dogs shall not be allowed on chairs, tables, or other  
 148 furnishings.

149 6. All table and chair surfaces shall be cleaned and  
 150 sanitized with an approved product between seating of patrons.  
 151 Spilled food and drink shall be removed from the floor or ground  
 152 between seating of patrons.

153 7. Accidents involving dog waste shall be cleaned  
 154 immediately and the area sanitized with an approved product. A  
 155 kit with the appropriate materials for this purpose shall be  
 156 kept near the designated outdoor area.

157 8. A sign or signs reminding employees of the applicable  
 158 rules shall be posted on premises in a manner and place as  
 159 determined by the local permitting authority.

160 9. A sign or signs reminding patrons of the applicable  
 161 rules shall be posted on premises in a manner and place as  
 162 determined by the local permitting authority.

163 10. A sign or signs shall be posted in a manner and place  
 164 as determined by the local permitting authority that places the  
 165 public on notice that the designated outdoor area is available  
 166 for the use of patrons and patrons' dogs.

167        (5) POWERS; ENFORCEMENT.--Participating municipalities  
168 shall have such powers as are reasonably necessary to regulate  
169 and enforce the provisions of this section.

170        (6) STATE ASSISTANCE.--The division shall provide  
171 reasonable assistance to participating municipalities in the  
172 development of enforcement procedures and regulations.

173        (7) FUTURE REVIEW AND REPEAL.--This section shall expire  
174 July 1, 2009, unless reviewed and saved from repeal through  
175 reenactment by the Legislature.

176        Section 2. This act shall take effect July 1, 2006.

SUMMARY ANALYSIS

The bill amends section 1 of ch. 2003-287, Laws of Florida. The bill increases from 12 to 14, the number of members on the Citrus/Hernando Waterways Restoration Council (Council). This is accomplished by adding two additional waterfront property owners to ensure that the Council membership includes one property owner from the west side and one from the east side of each county. The Citrus County Task Force and the Hernando County Task Force will extend their focus to include all waterways in Citrus County and in Hernando County instead of focusing solely on the Tsala-Apopka Chain of Lakes and the Weeki Wachee River and Springs. An additional representative from each county's public works department is added to the technical advisory group which advises the Council and the two county task forces.

This bill does not appear to have a fiscal impact on state government. There may be a minimal fiscal impact for the Southwest Water Management District relating to the per diem and travel expenses for the two additional members to the council.

This act shall take effect upon becoming a law.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

**Provide limited government** - The bill expands the Citrus/Hernando Waterways Restoration Council's duties as the members are responsible for all the waterways in Citrus and Hernando Counties instead of solely managing the Tsala-Apopka Chain of Lakes and the Weeki Wachee River and Springs.

#### B. EFFECT OF PROPOSED CHANGES:

##### Present Situation

The Citrus/Hernando Waterways Restoration Council (Council) was created by the legislature in 2003 (HB 221, Section 1, Chapter 2003-287, Laws of Florida) to develop tasks for the enhancement of fish and wildlife habitats in Citrus and Hernando counties. The public, the Fish and Wildlife Conservation Commission, the Southwest Florida Water Management District, as well as other local, regional, and state entities, have expressed concern that the lakes have been slowly filling in and are becoming marshy due to drought, fire suppression and several other factors. It is the Council's duty to recommend proposals to restore portions of the Citrus/Hernando waterways.

The Council is coordinated by representatives of the following agencies: The Florida Fish and Wildlife Conservation Commission, the Department of Environmental Protection and the Southwest Florida Water Management District. The Council consists of 12 voting members with six members appointed by the President of the Senate and six members appointed by the Speaker of the House of Representatives. The President and Speaker have each appointed:

- a waterfront property owner from each county;
- an attorney from each county;
- a member of the Board of Directors of the Chamber of Commerce from each county;
- an environmental engineer from each county;
- an engineer from each county; and
- a person from each county with training in biology or another scientific discipline.

Current law directs the Council members from both counties to form separate task forces to assess and make recommendations on waterways within their respective counties. The Citrus County Task Force is directed to develop plans for restoring the Tsala-Apopka Chain of Lakes, while the Hernando County Task Force must develop plans for restoring the Weeki Wachee River and Springs. A technical advisory group was created to assist the Council and the two county task forces by informing the members on the scientific and technical issues regarding water quality within the area.

The technical advisory group is comprised of the following: one representative each from the Southwest Florida Water Management District, the Department of Environmental Protection, the Department of Transportation, the Fish and Wildlife Conservation Commission, the Coastal Rivers Basin Board, the Withlacoochee River Basin Board, and the United States Army Corps of Engineers. Each member of the technical advisory group was appointed by his or her respective agency; it is a requirement that each member, with the exception of the representatives from the Withlacoochee River Basin Board and the Coastal Rivers Basin Board, have training in biology or another scientific discipline.

The Council's responsibilities include:

- reviewing audits and all data specifically related to lake and river restoration techniques and sport fish population recovery strategies, including data and strategies for shoreline restoration,

sand and other sediment control and removal, exotic species management, floating tussock management or removal, navigation, water quality, and fish and wildlife habitat improvement, as they are applicable to the Citrus/Hernando waterways;

- evaluating whether additional studies are needed;
- exploring all possible sources of funding to conduct the restoration activities;
- providing an annual progress report to the Speaker of the House of Representatives and the President of the Senate by November 25 of each year.

Concerns have been expressed by the citizens of both Citrus and Hernando counties that only the waterfront property owners in the eastern part of each county were represented on the Council. The waterfront property owners in the western part of each county want to have a representative appointed to better represent their interests. The majority of Citrus and Hernando water bodies are on the eastern side of each county; however, the Council wants to include a representative from both areas.

Another concern expressed to the Council is that the task forces are assessing only water bodies in the eastern part of the counties. Because only 25% of the water bodies in each county were originally included, there are a significant number of waterfront property owners who do not have a voice on these task forces. The separate task forces are not allowed to report on the other 75% of water bodies in Citrus and Hernando County. The task forces and the people in these two counties want to expand the responsibilities of both task forces to include all water bodies in Citrus and Hernando County.

### **Effect of Proposed Changes**

The bill amends section 1 of Chapter 2003-287, Laws of Florida, to: (1) increase the membership of the Council, (2) expand the focus of each task force, and (3) add a representative from each county's public works department to the technical advisory group. In order to address the concerns of the citizens of the two counties, the bill will increase the membership of the Council from 12 to 14 members, adding two waterfront property owners by requiring one property owner from the east side and one from the west side of each county. The bill expands the focus of each task force to include all waterways in each county. The bill also adds a representative from each county's public works department to the technical advisory group.

#### **C. SECTION DIRECTORY:**

Section 1. Amends section 1 of ch. 2003-287, F.S., relating to the Citrus/Hernando Waterways Restoration Council, by revising the membership, duties and powers of the Council, the membership of the two county task forces, and the technical advisory group.

Section 2. Provides an effective date.

**SUMMARY ANALYSIS**

This bill creates the Lake Padgett Estates Independent Special District (District) in Pasco County for the purpose of maintaining, operating, and improving recreational amenities and associated infrastructure in the area. The bill provides the minimum requirements which must be included in the charter when creating an independent special district. The bill authorizes the District to provide for and fund: recreational amenities, including the operation, maintenance, and improvement of the amenities and associated infrastructure.

The District may levy user charges, rentals and fees, special assessments, maintenance special assessments, and non-ad valorem assessments. The District also is authorized to impose ad valorem taxes not to exceed 3 mills upon voter approval at referendum conducted after the entire governing board of the District is elected by qualified electors of the District.

The bill creates a board of five supervisors to govern the District. Upon the effective date of the bill, the Pasco County Board of Commissioners will be the initial governing board of the District and remain so until the succeeding board of supervisors is elected at the general election of November 2006.

The Economic Impact Statement does not project any fiscal impact in FY 06-07 and FY 07-08; however, the District is authorized to levy ad valorem taxes (upon approval at referendum), non-ad valorem assessments, maintenance special assessments, special assessments, fees, rentals, and user charges. The amount of revenue which may be generated by these assessments and when is indeterminate.

**This bill may provide an exemption from the provisions of general law. Pursuant to House Rule 5.5(b), a local bill that provides an exemption from general law may not be placed on the Special Order Calendar in any section reserved for the expedited consideration of local bills.**

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

**Provide limited government/Ensure lower taxes** - This bill creates an independent special district with the power to levy ad valorem taxes, if approved at referendum, non-ad valorem assessments, maintenance special assessments, special assessments, fees, rentals, and user charges.

#### B. EFFECT OF PROPOSED CHANGES:

##### Current Situation

##### Special Districts Generally

Independent special districts are limited forms of government created to perform specialized functions. Special districts have no home rule power; rather, they only have the powers expressly provided by, or which can be reasonably implied from, the authority legislatively provided in their charter.

Chapter 189, F.S., is the "Uniform Special District Accountability Act" (Act). The Act provides that it is the specific intent of the Legislature that independent special districts may only be created by legislative authorization as provided in the Act.

Section 189.404(2), F.S., requires submission of a statement to the Legislature documenting the purpose of the proposed district, the authority of the proposed district, and an explanation of why the district is the best alternative. In addition, the section requires submission of a resolution or official statement issued by the appropriate local governing body in which the proposed district is located affirming that the creation of the proposed district is consistent with approved local government plans of the local governing body and that the local government has no objection to the creation of the proposed district.

Section 189.404(5), F.S., requires the charter of any newly created special district to contain a reference to the status of the special district as dependent or independent. The charters of independent districts must address and include certain provisions, including geographical boundaries, taxing authority, bond authority, and Board selection procedures. Section 189.404(2)(a), F.S., prohibits special laws which create independent districts that do not, at a minimum, conform to the minimum requirements in s. 189.404(3), F.S.

Section 189.404, F.S., also prohibits special acts creating independent special districts that are exempt from general law requirements regarding:

- General requirements and procedures for elections (s. 189.405, F.S.);
- Bond referenda requirements (s. 189.408, F.S.);
- Bond issuance reporting requirements (s.189.4085, F.S.);
- Public facilities reports (s. 189.415, F.S.); and
- Notice, meetings, and other required reports and audits (ss. 189.417 & 189.418, F.S.).

In addition to these extensive requirements for local bills creating independent special districts, other criteria mandated by the Florida Constitution must be fulfilled including notice requirements applicable to all local bills.

##### Election Procedure for Independent Special Districts Generally

Section 189.4051, F.S., provides a transition process for boards of special districts to convert from board members elected on a one-acre-one vote basis, to board members elected by qualified electors of the district. That section requires a referendum to be called by the board of a district that is elected

on a one-acre/one vote basis on the question of whether certain members of a district governing board should be elected by qualified electors, provided that all of the following conditions are satisfied at least 60 days prior to the referendum:

1. The district has a total population of at least 500 qualified electors; and
2. A petition signed by 10 percent of the qualified electors is filed with the governing board and certified by the supervisor of elections.

If the qualified electors approve the election procedures described in s. 189.4051(2), F.S., the board must be increased to five members and elections must be held pursuant to that provision. After approval, the board must prepare maps of the district describing the "urban areas"<sup>1</sup> within the district. A process is provided in statute for landowners or qualified electors to contest the accuracy of the urban area maps. Upon adoption of the urban area maps by the board, the maps are used to determine the extent of urban area within the district and the number of governing board members to be elected by qualified electors and those elected on a one-acre/one-vote basis. If the electors disapprove the election procedure, elections of board members continue as described by general law or enabling legislation of the district.

### Community Development Districts

Chapter 190, F.S., the Uniform Community Development District Act, allows for the establishment of independent special districts with governmental authority to manage and finance infrastructure for planned developments. Community Development Districts (CDDs) must be contained within the boundaries of a single county. CDDs consisting of 1,000 acres or more must be created by rule adopted by the Florida Land and Water Adjudicatory Commission granting a petition for the establishment of the CDD, whereas CDDs with less than 1,000 acres must be created pursuant to county or municipal ordinance.

Initial financing is typically through the issuance of tax-free bonds, with the corresponding imposition of ad valorem taxes, special assessments, or service charges. Consequently, the burden of paying for the infrastructure is imposed on those buying land, housing, and other structures in the district -- not on the other taxpayers of the county or municipality in which the district is located.

Section 190.012, F.S., specifies the types of infrastructure CDDs are authorized to provide, including infrastructure relating to water management and control; water supply, sewer and waste water management, reclamation, and reuse; bridges or culverts; roads; street lights; parks and other outdoor recreational, cultural, and educational facilities; fire prevention and control; school buildings; security; mosquito control; and waste collection and disposal. CDDs are governed by an elected five-member board of supervisors, who possess the general managerial authority provided to other special districts in the state. This includes the authority to hire and fix the compensation of a general manager, to contract, to borrow money, to adopt administrative rules pursuant to ch. 120, F.S., and the power of eminent domain.<sup>2</sup>

### Lake Padgett Estates Independent Special District

Resolution 2006-20, regarding the "Creation of the Proposed Independent Special District to be known as the Lake Padgett Estates Independent Special District", was passed unanimously by the Pasco Board of County Commissioners and adopted on November 8, 2005. This resolution supports the creation of the Lake Padgett Estates Independent Special District. The resolution states that:

---

<sup>1</sup> Section 189.4051(1)(b), F.S., defines "urban area" as "a contiguous developed and inhabited urban area within a district with a minimum average resident population density of at least 1.5 persons per acre as defined by the latest official census, special census, or population estimate or a minimum density of one single-family home per 2.5 acres with access to improved roads or a minimum density of one single-family home per 5 acres within a recorded plat subdivision. Urban areas must be designated by the governing board of the district with the assistance of all local general-purpose governments having jurisdiction over the area within the district."

<sup>2</sup> *Community Development Districts*, The Florida Senate, Committee on Comprehensive Planning, Interim Project Report 2004-121, Nov. 2003.

“currently, said lands and amenities are maintained by the Pasco County Parks and Recreational Department on behalf of the residents of Lake Padgett Estates and funded through the Lake Padgett Municipal Service Unit, established by Pasco County Ordinance No. 78-19, for the benefit of the residents of Lake Padgett Estates. There is a particular special need to use a specialized and limited single-purpose independent special district unit of local government to prevent deterioration of existing infrastructure to continue to provide recreational amenities and associated infrastructure, improvements and service, and to prevent needless and counterproductive local government duplication and involvement in the maintenance and operation of the Lake Padgett Estates recreational amenities.”<sup>3</sup>

### **Effect of Proposed Changes**

This bill creates the Lake Padgett Independent Special District (District), a limited single-purpose local government and independent special district whose jurisdictional boundaries are located within Pasco County. Creation of the District appears to comply with the requirements for creating special districts found in ch. 189, F.S., including the minimum charter requirements listed in s. 189.404(3), F.S. The exclusive charter of the District is created by this bill.

This bill creates the District for the purpose of maintaining, operating, and improving recreational amenities and associated infrastructure in the area. The bill authorizes the District to provide for and fund: recreational amenities, including the operation, maintenance, and improvement of the amenities and associated infrastructure.

The bill includes a policy statement which states that the creation of the District by this act, and its exercise of its management and related financing powers to implement its limited, single, and special purpose, is not a development order and does not trigger or invoke any provision within the meaning of chapter 380, F.S., and all applicable governmental planning, environmental, and land development laws, regulations, rules, policies, and ordinances apply to all development of the land within the jurisdiction of the District as created by this act.

### **Modification of District Boundaries and Termination of the District**

The bill specifies that the charter of the District, as created in this bill, may only be amended by special act of the Legislature. The Board may ask the Legislature through its local legislative delegation in Pasco County to amend the charter created by this bill to expand or to contract the boundaries of the District. The District will remain in existence until the District is terminated and dissolved by the Legislature or the District has become inactive pursuant to s. 189.4044, F.S. The inclusion of any or all territory of the District within a municipality does not change, alter, or affect the boundary, territory, existence, or jurisdiction of the District.

### **Election of the Governing Board by Landowners**

The District is governed by a Board of Supervisors (Board) consisting of 5 members. Board members must be residents of the state and citizens of the United States. The bill specifies that “[t]he transition process described herein is intended to be in lieu of the process set forth in section 189.4051, Florida Statutes.” Initial Board members will be the Pasco County Board of Commissioners until the succeeding board of supervisors is elected at the general election in November 2006. With respect to the elections of initial board members, the board members will hold office for a 2-year term limit. Board members will assume office on the second Tuesday following their election.

The Board may not exercise the ad valorem taxing power authorized by this bill until such time as all members of the Board are qualified electors who are elected by qualified electors of the District.

## General Administration of the Board

Members of the Board, regardless of how elected, are public officers and, upon entering into office, must take and subscribe to the oath of office as prescribed by s. 876.05, F.S. Members of the Board are subject to ethics and conflict of interest laws of the state that apply to all local public officers. If, during the term of office, a vacancy occurs, the remaining members of the Board must fill each vacancy by an appointment for the remainder of the unexpired term. Any elected member of the Board may be removed by the Governor for malfeasance, misfeasance, dishonesty, incompetence, or failure to perform the duties imposed upon him or her by this bill, and any vacancies that may occur in such office for such reasons must be filled by the Governor as soon as practicable.

A majority of the members of the Board constitutes a quorum for the purposes of conducting its business and exercising its powers and for all other purposes. Action taken by the District must be upon a vote of a majority of the members' present, but not less than three votes, unless general law or a rule of the District requires a greater number.

Each Board member is entitled to receive for his or her services an amount not to exceed \$50 per meeting of the Board of Supervisors, not to exceed \$1,200 per year per member, or an amount established by the electors at referendum. In addition, each supervisor receives travel and per diem expenses as provided in s. 112.061, F.S.

Records of the Board are subject to the Public Records Act in ch. 119, F.S., and the District is subject to the open meetings provisions in ch. 286, F.S. The District must provide financial reports in such form and such manner as prescribed pursuant to this bill and chapters 189 and 218, F.S., and s. 190.008, F.S.

The bill specifies that by December 31, 2006, the board will enter into intergovernmental agreements, as authorized by ch. 163, F.S., with the Pasco County Property Appraisers and the Pasco County Tax Collector for the assessment, collection, and distribution of ad valorem taxes, special assessments, and maintenance special assessments as may be imposed by the board.

The District must take affirmative steps to provide for the full disclosure of information relating to the public financing and maintenance, operation, and improvement of the recreational amenities and associated infrastructure of improvements to real property undertaken by the District. Such information must be made available to all existing residents and all prospective residents of the District. The District must furnish each landowner within the district a copy of this information.

## General Powers

This bill grants the District general powers consistent with those granted to community development districts under s. 190.011, F.S., where not inconsistent with the following:

- To contract for the services of consultants to perform planning, engineering, legal, or other appropriate services of a professional nature. Such contracts are subject to public bidding or competitive negotiation requirements pursuant to general law.
- To maintain an office at such place or places as the board of supervisors designates in Pasco County, and within the District when facilities are available.
- To borrow money and issue certificates, warrants, notes, or other evidence of indebtedness as hereinafter provided; to levy such taxes and assessments as may be authorized; and to charge, collect, and enforce fees and other user charges.
- To determine, order, levy, impose, collect, and enforce assessments pursuant to this bill and ch. 170, F.S., pursuant to authority granted in s. 197.3631, F.S., or pursuant to other provisions of general law now or hereinafter enacted which provide or authorize a supplemental means to order, levy, impose, or collect special assessments. Such special assessments, in the discretion of the District, may be collected and enforced pursuant to the provisions of ss. 197.3632 and

197.3635, F.S., and chs. 170 and 173, F.S., or as provided by this bill, or by other means authorized by general law now or hereinafter enacted.

- To exercise special powers and other express powers as may be authorized and granted, including powers provided in any interlocal agreement entered into pursuant to ch. 163, F.S.

The District will not have the power of eminent domain.

### Special Powers

The bill authorizes the District to exercise the following "special powers" subject to, and not inconsistent with, the regulatory jurisdiction and permitting authority of all other applicable governmental bodies, agencies, and any special districts having authority with respect to any area included therein:

- To provide district parks and open space and the continued maintenance, operation, and improvement thereof. This special power includes, but is not limited to, passive and active recreational areas, lakes, and canals, containing picnic shelters, boat ramps and docks, volleyball, basketball, tennis, horseshoe, and shuffleboard courts, playgrounds and open space, wildlife habitat, including the maintenance of any plant or animal species, mitigation areas, landscaping and irrigation, bicycle lanes, jogging paths, riding trails, regulatory or informational signage, and all other customary elements of such park and open-space areas and any related interest in real or personal property.
- To provide buildings, structures, and like improvements and the continued maintenance, operation, and improvement thereof. This special power includes, but is not limited to, bathroom facilities, maintenance buildings, lighting and security facilities such as walls and guardhouses, parking areas, wildlife observation towers, stables, and stormwater facilities necessary and incidental to the recreational amenities, and associated infrastructure or any other project authorized or granted by this act.
- To establish and create, at noticed meetings, such governmental departments of the Board of Supervisors of the District, as well as committees, task forces, boards, or commissions, or other agencies under the supervision and control of the District, as from time to time the members of the Board may deem necessary or desirable in the performance of the acts or other things necessary to exercise the Board's general or special powers to implement an innovative project to carry out the special purpose of the District as provided in this bill and to delegate the exercise of its powers to such departments, boards, task forces, committees, or other agencies and such administrative duties and other powers as the Board may deem necessary or desirable but only if there is a set of expressed limitations for accountability, notice, and periodic written reporting to the Board that must retain the powers of the Board.

The bill provides the enumeration of special powers is not exclusive or restrictive but incorporates all powers express or implied necessary or incident to carrying out such enumerated special powers, including also the general powers provided by this bill to implement the District's single purpose. Further, these special powers must be construed liberally in order to carry out effectively the special purpose of the District.

### District Financing

*Borrowing.* The District at any time may obtain loans for the purpose of paying any of the expenses of the District or any costs incurred or that may be incurred in connection with any of the projects of the District. The Board must have the right to provide for the payment thereof by pledging the whole or any part of the funds, revenues, taxes, and assessments of the District. The approval of the electors residing in the District is not necessary except when required by the State Constitution.

*Ad Valorem Taxation.* When the entire Board is elected by qualified electors of the District, the Board is authorized to levy and assess an ad valorem tax on all the taxable property in the District to operate and maintain assessable improvements of recreational amenities and associated infrastructure. An ad valorem tax levied by the Board for operating purposes may not exceed 3 mills. The ad valorem tax

provided for herein is in addition to county and all other ad valorem taxes provided for by law. Ad valorem taxes must be assessed, levied, and collected in the same manner and at the same time as county taxes and as provided for by the intergovernmental agreements. The levy of ad valorem taxes must be approved by referendum as required by s. 9 of Art. VII of the State Constitution.

*Enforcement of taxes.* The collection and enforcement of all taxes levied by the District must be at the same time and in like manner as county taxes. The provisions of the laws of Florida relating to the sale of lands for unpaid and delinquent county taxes, the issuance, sale, and delivery of tax certificates for such unpaid and delinquent county taxes, the redemption thereof, the issuance to individuals of tax deeds based thereon, and all other procedures in connection therewith are applicable to the District to the same extent as if such statutory provisions were expressly set forth in the bill. All taxes are subject to the same discounts as county taxes. All taxes become delinquent and bear penalties on the amount of such taxes in the same manner as county taxes.

*Maintenance special assessments.* To maintain and preserve the recreational facilities and associated infrastructure of the District, the Board may levy a maintenance special assessment.

*Special assessments.* To operate and improve the recreational facilities and associated infrastructure of the District, the Board may levy a special assessment.

Assessments authorized by this bill constitute a lien on the property against which assessed until paid. These assessments may be collected, at the District's discretion, under ss. 197.363 and 197.3631, F.S., by the tax collector pursuant to the provisions of ss. 197.3632 and 197.3635, F.S., or in accordance with other collection measures provided by law. These assessments may also be enforced pursuant to the provisions of ch. 173, F.S.

The amount of the maintenance special assessment is determined by the board based upon a report of the District's engineer and assessed by the board, which will be on all of the lands within the District benefited by the maintenance, apportioned between the benefited lands in proportion to the benefits received by each tract of land.

*Land owned by governmental entity.* Except as otherwise required by law, the District may not levy ad valorem taxes or non-ad valorem assessments on property of a governmental entity located within the District.

*Tax Liens; Payment of taxes and redemption of tax liens; Sharing in proceeds of tax sale; Foreclosure of Liens.* Tax liens, the payment of taxes and redemption of tax liens, sharing in proceeds of a tax sale, and the foreclosure of liens are prescribed in ss. 190.024, 190.025, and 190.026, F.S., and subject to all other requirements of law.

*Fees, rentals, and charges; Procedure for adoption and modifications.* The District is authorized to prescribe, fix, establish, and collect reasonable user fees, rentals, or other charges, and to revise the same from time to time, for the use of the recreational amenities and associated infrastructure furnished by the District pursuant to the adoption procedure prescribed by s. 190.035, F.S. The user fees, rentals, and charges will be just and equitable and uniform for users of the same class and, when appropriate, may be based or computed either upon the amount of service furnished, upon the average number of persons residing or working in or otherwise occupying the premises served, or upon any other factor affecting the use of the facilities furnished, or upon any combination of the foregoing factors, as may be determined by the board on an equitable basis.

In the event that any rates, fees, rentals, charges, or delinquent penalties are not paid as and when due and are in default for 60 days or more, the unpaid balance thereof and all interest accrued thereon, together with reasonable attorney's fees and costs, may be recovered by the District in a civil action.

*Enforcement and Penalties.* The Board or any aggrieved person may have recourse to such remedies in law and at equity pursuant to s. 190.041, F.S.

*Procurement.* Competitive procurement, bids, and negotiations are pursuant to s. 190.033, F.S., and subject to all other requirements of law.

*District Immunity.* Any suit or action brought or maintained against the District for damages arising out of tort, including, without limitation, any claim arising upon account of an act causing an injury or loss of property, personal injury, or death, will be subject to the limitations provided in s. 768.28, F.S.

*Exemption of District Property from Execution.* All District property is exempt from levy and sale by virtue of an execution, and no execution or other judicial process may issue against the property, nor may any judgment against the District be a charge or lien on its property or revenues.

*Termination, Contraction, or Expansion of District.* The Board may ask the Legislature through its local legislative delegations in and for Pasco County to amend the charter created by this bill to expand or to contract the boundaries of the District. The District will remain in existence until the District is terminated and dissolved by the Legislature or the District has become inactive pursuant to s. 189.4044, F.S. The inclusion of any or all territory of the District within a municipality does not change, alter, or affect the boundary, territory, existence, or jurisdiction of the District.

*Sale of Property Within the District.* Subsequent to the creation of the District, each contract for the sale of a parcel of real property within the District must include, immediately prior to the space reserved in the contract for the signature of the purchaser, the following disclosure statement in boldfaced and conspicuous type which is larger than the type in the remaining text of the contract: " **THE LAKE PADGETT ESTATES INDEPENDENT SPECIAL DISTRICT MAY IMPOSE AND LEVY TAXES OR ASSESSMENTS, OR BOTH TAXES AND ASSESSMENTS, ON THIS PROPERTY. THESE TAXES AND ASSESSMENTS PAY FOR THE OPERATION, MAINTENANCE, AND IMPROVEMENT COSTS OF CERTAIN RECREATIONAL AMENITIES AND ASSOCIATED INFRASTRUCTURE AND SERVICES OF THE DISTRICT AND ARE SET ANNUALLY BY THE BOARD OF SUPERVISORS OF THE DISTRICT. THESE TAXES AND ASSESSMENTS ARE IN ADDITION TO COUNTY AND OTHER LOCAL GOVERNMENTAL TAXES AND ASSESSMENTS AND ALL OTHER TAXES AND ASSESSMENTS PROVIDED FOR BY LAW.**"

*Notice of District Creation.* Within 30 days after the election of the first Board, the District must cause to be recorded in the grantor-grantee index of the property records of Pasco County a "Notice of Creation and Establishment of the Lake Padgett Estates Independent Special District." ### III. COMMENTS

A. CONSTITUTIONAL ISSUES: None.

B. RULE-MAKING AUTHORITY: None.

C. DRAFTING ISSUES OR OTHER COMMENTS:

#### **Possible Exemptions from General Law**

The bill includes the following provisions, all of which appear to be exemptions from general law:

- The bill specifies that the Pasco County Board of Commissioners will be the initial governing board of the District and remain so until the succeeding board of supervisors is elected at the general election of November 2006.<sup>4</sup>
- The bill establishes a process to transition the governing board to a board elected by qualified electors of the District. The bill specifically provides that "[t]he transition process described herein is intended to be *in lieu of* the process set forth in section 189.4051, Florida Statutes."<sup>5</sup> [Emphasis added.]

#### **Drafting Issues**

- As noted above, in lines 307 – 309 the bill states "the transition process described herein is intended to be in lieu of the process set forth in section 189.4051, Florida Statutes." However, the cited statutory section provides a transition process for a board elected by landowners to one elected by qualified electors. The bill does not provide for a board elected by landowners.
- Lines 634 – 636 of the bill address suits against the district. Line 635 includes the word "and," which appears to be in error.

### IV. AMENDMENTS/COMMITTEE SUBSTITUTE & COMBINED BILL CHANGES

551 the power to levy and assess an ad valorem tax on all the  
552 taxable property in the district to maintain, operate, and  
553 perform improvements of recreational amenities and associated  
554 infrastructure. An ad valorem tax levied by the board for  
555 operating purposes shall not exceed 3 mills. The ad valorem tax  
556 provided for herein shall be in addition to county and all other  
557 ad valorem taxes provided for by law. Such tax shall be  
558 assessed, levied, and collected in the same manner and at the  
559 same time as county taxes and as provided for by the  
560 intergovernmental agreements required in section 4 of this act.  
561 The levy of ad valorem taxes must be approved by referendum as  
562 required by Section 9 of Article VII of the State Constitution.

568 certificates for such unpaid and delinquent county taxes, the  
569 redemption thereof, the issuance to individuals of tax deeds  
570 based thereon, and all other procedures in connection therewith  
571 shall be applicable to the district to the same extent as if  
572 such statutory provisions were expressly set forth herein. All

586 appraiser by the board of supervisors by a date each year as  
587 determined by interlocal agreement and shall be entered by the  
588 property appraiser on the county tax rolls and shall be  
589 collected and enforced by the tax collector in the same manner  
590 and at the same time as county taxes, and the proceeds therefrom  
591 shall be paid to the district. However, this subsection shall  
592 not prohibit the district in its discretion from using a method  
593 prescribed in section 197.363, section 197.3631, section  
594 197.3632, or section 197.3635, Florida Statutes, or chapter 173,  
595 Florida Statutes, for collecting and enforcing these  
596 assessments. These maintenance special assessments shall be a  
597 lien on the property against which assessed until paid and shall  
598 be enforceable in like manner as county taxes. The amount of the  
599 maintenance special assessment for the exercise of the  
600 district's powers under this section shall be determined by the  
601 board based upon a report of the district's engineer and  
602 assessed by the board upon such lands, which shall be all of the  
603 lands within the district benefited by the maintenance thereof,  
604 apportioned between the benefited lands in proportion to the  
605 benefits received by each tract of land.

606       (d) Land owned by governmental entity.--Except as  
607 otherwise required by law, the district shall not levy ad  
608 valorem taxes or non-ad valorem assessments under this act or  
609 chapter 170 or chapter 197, Florida Statutes, on property of a

##### Background

##### **The Indian River Lagoon**

The South Florida Water Management District ("SFWMD") and the U.S. Army Corps of Engineers completed a Final Integrated Project Implementation Report and Environmental Impact Statement in March 2004 that covers central and southern Florida. The SFWMD describes the Indian River Lagoon as a "series of three distinct, but interconnected, estuarine systems, which extend 156 miles from Ponce Inlet to Jupiter Inlet on Florida's east coast."<sup>1</sup> The northern portion of the lagoon is within the St. Johns River Water Management District, while the lagoon's southern section is located within the SFWMD in St. Lucie, Martin and northern Palm Beach counties.<sup>2</sup>

The Indian River Lagoon has been described as the most bio-diverse estuarine system in all of North America, providing shelter to manatees, dolphins, sea turtles, and seahorses.<sup>3</sup> Part of the Indian River Lagoon is an estuary of national significance, recognized by the U.S. Environmental Protection Agency National Estuary Program and designated a Florida Aquatic Preserve and Outstanding Florida Water.<sup>4</sup> Moreover, the lagoon supports multimillion dollar fishing, clamming, tourism, agricultural and recreational industries.<sup>5</sup>

SFWMD defines a lagoon as a "broad, shallow estuarine system separated from the ocean by a barrier island, generally paralleling the shoreline and limiting exchange with the sea through inlets."<sup>6</sup> An estuary is defined as an "area where saltwater from the sea mixes with freshwater from the land, such as a bay, the mouth of a river, a salt marsh, or a lagoon."<sup>7</sup> Estuarine systems are important for the "survival of many species of birds, mammals, fish and other wildlife, some of them rare and endangered."<sup>8</sup> There are several benefits that saltwater grasses and other estuarine plants provide to their surroundings which include erosion prevention and stabilizing shorelines.<sup>9</sup>

Both SFWMD and the U.S. Army Corps of Engineers have stated in the Final Integrated Project Implementation Report that the southern Indian River Lagoon ecosystem is in imminent danger of ecological collapse.<sup>10</sup> "The estuary system has been degraded by large and frequently occurring discharges of freshwater, and by excessive accumulation of muck in estuary and lagoon bottoms."<sup>11</sup> This has produced a reduction in water clarity and ultimately "exceeded the salinity tolerances of

submerged vegetation and benthic animals.”<sup>12</sup> Because so much of the income of Martin and St. Lucie Counties relies on recreational and commercial fishing and other marine-related activities, further degradation of the lagoon ecosystem may have a direct adverse impact on the regional economy.<sup>13</sup>

Adequately and reliably meeting the water supply demands of the agricultural interests in the south Florida area is also an issue. Historically, most rainwater soaked into the ground in the region’s short hydroperiod wetland systems.<sup>14</sup> As Martin and St. Lucie Counties developed, some of these wetlands were converted into agricultural and urban land issues. For some of the remaining wetlands, the network of drainage canals worked too efficiently and drained too much water off the land too quickly. The net result is that insufficient water is stored for all agricultural use in the dry season, and agricultural interests are forced to rely on the moderately saline Floridan aquifer to supplement irrigation needs.<sup>15</sup> Reliance on this source for extended periods of time can lead to decline in productivity and potential die-off of crops. According to the SFWMD and U.S. Army Corps of Engineers, without the features contained in the Indian River Lagoon – South Restoration Plan, these adverse impacts to regional agriculture will continue.<sup>16</sup>

### **Indian River Lagoon - South Restoration Plan**

The Indian River Lagoon – South (IRL-S) Restoration Plan is one of the highly interrelated components of the Comprehensive Everglades Restoration Plan (“CERP”), a joint federal-state effort to restore hydropatterns in the Everglades area. However, the United States Congress must authorize implementation of the IRL-S Restoration Plan in order for restoration activities to proceed.

The IRL-S Restoration Plan will allow significant restoration of physically and biologically degraded areas in the southern Indian River Lagoon area, while providing for other water-related needs of the region, including sustainable agricultural water supply and maintenance of existing flood protection.<sup>17</sup> The IRL-S Restoration Plan recommends a plan for Martin, St. Lucie, and Okeechobee Counties that will improve water quality within the St. Lucie Estuary and the Indian River Lagoon by reducing the damaging effects of watershed runoff, reducing high peak freshwater discharges to control salinity levels, reducing nutrient loads, pesticides and other pollutants.<sup>18</sup> The project will also provide a water supply for agriculture to offset reliance on the Floridan aquifer.<sup>19</sup> “The IRL-S Restoration Plan includes building and operating approximately 12,600 acres of new reservoirs and approximately 8,700 acres of new stormwater treatment areas, restoring natural hydrology on approximately 92,000 acres in the watershed, restoring approximately 3,100 acres of floodplain wetlands in the North Fork of the St. Lucie River, and muck removal and habitat restoration actions inside the estuaries.”<sup>20</sup>

The IRL-S Restoration Plan recommends the following: “building pumps, levees, canals and other water control structures to operate and interconnect project features and provide a mechanism for re-directing freshwater discharges.”<sup>21</sup> As a result, there will be significant reduction in harmful discharges

into the estuaries, water quality treatment will be provided, native wetland and upland habitat in the watershed will be restored, and there will be improved habitat for natural populations of flora and fauna, including threatened and endangered species.<sup>22</sup>

Without the implementation of the IRL-S Restoration Plan, the southern Indian River Lagoon ecosystem will continue to deteriorate and will remain in imminent danger of ecological collapse. A small level of ecological improvement within the south Florida ecosystem is expected to occur by 2050 as a result of implementation of Federal, state, and local projects currently planned outside of the CERP program.<sup>23</sup> Some of these projects would beneficially affect the study area. However, the cumulative, regional benefits from these projects would not result in restoration of the Indian River Lagoon ecosystem and its watershed. While the IRL-S Restoration Plan addresses to a significant degree the restoration needs associated with impacts from the watershed, the balance of the CERP further contributes to the restoration of the Indian River Lagoon by providing additional storage of excess regional water from Lake Okeechobee and its enormous watershed.<sup>24</sup> The success of the IRL-S Restoration Plan is ultimately dependent upon the implementation of the overall restoration plan for the south Florida ecosystem.

### **The Caloosahatchee River and Estuary**

The 2004 hurricane season generated unprecedented rainfall, dumping up to 13 million gallons of water each minute into Lake Okeechobee at its peak. Lake Okeechobee rose by more than five and a half feet in less than three months -- from just over 12 feet in early August to more than 18 feet by mid-October. The high winds, heavy rainfall and recent warm weather contributed to murky waters, poor water quality and a decline in the health of the Lake. Regulated freshwater discharges needed to lower lake levels and prevent flooding have impacted not only the health of the St Lucie River and its estuary but also the Caloosahatchee River and its estuary.

The SFWMD describes the Caloosahatchee River estuary as an area "where the waters of the Gulf of Mexico mix with the freshwater inflows from the river, sloughs and overland sheetflows in the basin."<sup>25</sup> In the lower reaches of the river and estuary are sand flats, a shallow bay and extensive seagrass beds.<sup>26</sup> Widespread mangrove forests dominate undeveloped areas of the shoreline.<sup>27</sup> Southwest Florida estuaries are habitat to more than 40 percent of Florida's rare, endangered and threatened species.<sup>28</sup> "The Caloosahatchee River and estuary extend about 70 miles from Lake Okeechobee to San Carlos Bay on Florida's southwest coast."<sup>29</sup> Pine Island Sound, Matlacha Pass, Charlotte Harbor aquatic preserves and Telegraph Swamp are all noteworthy natural system resources within the Caloosahatchee River watershed.<sup>30</sup>

The following are major issues affecting the Caloosahatchee River watershed: water supply availability, salinity variations and nutrient levels.<sup>31</sup> "Water quality within the Caloosahatchee River basin is threatened by altered freshwater inputs, nutrient loads from agricultural activities, trace elements, and overall urban growth and development within the watershed."<sup>32</sup> The value of riverine and estuarine ecosystems depends on water quality. As water quality diminishes, so does the overall quality of the system.<sup>33</sup>

### **The Lake Okeechobee and Estuary Recovery Plan**

Governor Bush announced the Lake Okeechobee and Estuary Recovery Plan ("Plan") on October 10, 2005. The Plan is designed to reduce pollution and better manage the flow of water from Lake Okeechobee to the St. Lucie River and the Caloosahatchee River while meeting south Florida's flood control and water supply responsibilities.<sup>34</sup> "Under the \$200 million recovery plan, the State is expanding water storage areas, constructing treatment marshes and expediting environmental management initiatives to enhance the ecological health of the lake and downstream coastal estuaries."<sup>35</sup> As part of the Plan, State agencies are working together to improve farming practices by raising standards and strengthening permitting criteria for new development.<sup>36</sup> "The State will also begin implementing a new lake regulation schedule with the U.S. Army Corps of Engineers to lower water levels and reduce freshwater discharges to the St. Lucie and Caloosahatchee estuaries to improve current conditions."<sup>37</sup> Governor Bush's Lake Okeechobee and Estuary Recovery Plan involves the following agencies: South Florida Water Management District, Department of Environmental Protection, Department of Community Affairs and Department of Agriculture and Consumer Services.<sup>38</sup>

Governor Bush intends to ask the Florida Legislature to provide a second installment of \$25 million in next year's budget (FY 2006-2007), building on an initial investment of \$30 million this year - \$25 million in growth management funding from the Department of Environmental Protection and \$5 million from the Department of Agriculture and Consumer Services.

### **Effect of Proposed Changes**

The memorial urges the United States Congress to promptly enact pending legislation to authorize the Indian River Lagoon Restoration Project and requests the President of the United States to sign that legislation into law. The memorial also requests the President to work with Congress to develop and enact a comprehensive planning and funding initiative to be implemented in coordination with Governor Bush's Lake Okeechobee and Estuary Recovery Plan announced on October 10, 2005.

The implementation of the IRL-S Restoration Plan is contingent on the appropriation of funds by the United States Congress for the work to be completed. It is currently estimated that \$1.3 billion will be needed to fully implement the IRL-S Restoration Plan.<sup>39</sup>

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

The bill does not appear to implicate any of the House Principles.

#### B. EFFECT OF PROPOSED CHANGES:

The District was created by judicial decree of the twelfth circuit court in 1958. This decree was ratified by the Legislature in 1963 by ch. 63-1549, L.O.F. This special act provided that the District was created under ch. 298, F.S. The District encompasses over 63,000 acres of land and approximately 311 miles of canals. The District is authorized to levy annual installment and maintenance taxes. The collection and enforcement of taxes levied by the District are provided for in the same manner as county taxes. The District's authorization includes the authority to sell land for unpaid and delinquent taxes and the issuance and sale of tax certificates for unpaid taxes.

This bill amends the boundaries of the District to add approximately 63 acres of land (less than 0.1% of the total District), composed of two undeveloped parcels of land owned by two landowners who have consented to inclusion of their property into the District. This bill also corrects a scrivener's error.

#### C. SECTION DIRECTORY:

Section 1: Subsection (2) of section 1 of section 3 of chapter 2000-423, Laws of Florida, is amended, relating to district creation and boundaries.

Section 2: Provides effective date of upon becoming a law.

C. DRAFTING ISSUES OR OTHER COMMENTS:

Other Comments

Mr. M. Christopher Lyon, Esq., with the law firm of Lewis, Longman & Walker, P.A., representing the District, sent the following statement relating to the boundaries of the district:

This bill proposes to add to the District approximately 63 acres of land, owned by two landowners who approached the District and have consented to inclusion. Additionally, the two parcels are District enclaves, as they are located inside the District's current boundaries but excluded from the District. These parcels to be added already receive the benefit of the services provided by the District, without contributing to the expense of these improvements. If included, the parcels will receive additional benefit from the District in the form of drainage improvements to the land. The District and its residents will also benefit from inclusion of the parcels as they will receive additional revenues from the added parcels.<sup>1</sup>

The district attorney has submitted a letter from the District clarifying the parcels of land to be added to the District. The district attorney also submitted consent agreements between the landowners and the District for the two parcels to be included.

HOUSE OF REPRESENTATIVES STAFF ANALYSIS

BILL #: HB 7009 PCB GO 06-02 OGSR Local Government Managers
SPONSOR(S): Governmental Operations Committee, Rivera
TIED BILLS: None IDEN./SIM. BILLS: None

Table with 4 columns: REFERENCE, ACTION, ANALYST, STAFF DIRECTOR. Row 1: Orig. Comm.: Governmental Operations Committee, 5 Y, 0 N, Williamson, Williamson. Row 2: 1) Local Government Council, DiVagno, Hamby.

SUMMARY ANALYSIS

The Open Government Sunset Review Act requires the Legislature to review each public record and each public meeting exemption five years after enactment. If the Legislature does not reenact the exemption, it automatically repeals on October 2nd of the fifth year after enactment.

The bill reenacts and narrows the public records exemption for certain identification and location information regarding an employee relations director, assistant director, manager, or assistant manager of a local government agency or water management district. It also reenacts and narrows the public records exemption for certain identification and location information regarding the spouse or child of that manager. The exemption will repeal on October 2, 2006, if this bill does not become law.

The bill may have a minimal non-recurring fiscal impact on local governments. The bill does not appear to have a fiscal impact on state government.

# FULL ANALYSIS

## I. SUBSTANTIVE ANALYSIS

### A. HOUSE PRINCIPLES ANALYSIS:

**Provide limited government** – The bill narrows the public records exemption thereby increasing public access to government information.

### B. EFFECT OF PROPOSED CHANGES:

#### Background

#### Public Records Exemption for Certain Local Government Managers

Current law provides a public records exemption for certain identification and location information regarding a current or former employee relations director, assistant director, manager, or assistant manager (manager) of a local government agency or water management district.<sup>1</sup> Specifically, the home address, telephone number, social security number, and photograph of the manager are exempt<sup>2</sup> from public disclosure. In addition, a public records exemption exists for the:

- Name, home address, telephone number, social security number, photograph and place of employment of the spouse of the manager; and
- Name, home address, telephone number, social security number, photograph, place of employment, and the name and location of the school or daycare facility attended by the child of the manager.

Further, an agency, other than the employing agency, must maintain the exempt status of the identification and location information upon receipt of a written request by the affected manager or that manager's employer.<sup>3</sup>

Pursuant to the Open Government Sunset Review Act,<sup>4</sup> the exemption will repeal on October 2, 2006, unless reenacted by the Legislature.

#### Open Government Sunset Review of the Exemption

House staff reviewed the public records exemption pursuant to the Open Government Sunset Review Act and determined that, with modification, the exemption meets the requirements for reenactment.<sup>5</sup> Staff concluded that certain information currently protected by the public records exemption either is protected by a more general public records exemption or is not maintained by the employing agency. A narrower public records exemption protects the release of social security numbers.<sup>6</sup> The employing agency does not maintain the photograph of the spouse or child of the manager.

#### Effect of Bill

<sup>1</sup> In order to receive the benefit of the exemption, such personnel's duties and responsibilities must include hiring and firing employees, labor contract negotiation, administration, or other personnel-related duties. Section 119.071(4)(d)2., F.S.

<sup>2</sup> There is a difference between records that are exempt from public records requirements and those that are *confidential* and exempt. If the Legislature makes a record confidential and exempt, such record cannot be released by an agency to anyone other than to the persons or entities designated in the statute. See Attorney General Opinion 85-62. If a record is simply made exempt from disclosure requirements, an agency is not prohibited from disclosing the record in all circumstances. See *Williams v. City of Minneola*, 575 So.2d 683, 687 (Fla. 5th DCA), review denied, 589 So.2d 289 (Fla. 1991).

<sup>3</sup> Section 119.071(4)(a)(2), F.S.

<sup>4</sup> Section 119.15, F.S.

<sup>5</sup> Staff surveyed and interviewed managers as part of the review process.

<sup>6</sup> Section 119.071(5)(a), F.S.

The bill removes the repeal date, thereby reenacting the public records exemption. It narrows the public records exemption by removing the exemption for the photograph of the spouse or child of a manager. The bill removes the duplicative public records exemption for social security numbers.

**C. SECTION DIRECTORY:**

Section 1 amends s. 119.071(4)(d), F.S., to reenact and narrow the public records exemption for managers.

Section 2 provides an effective date of October 1, 2006.

**II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT**

**A. FISCAL IMPACT ON STATE GOVERNMENT:**

1. Revenues:

None. The bill does not create, modify, amend, or eliminate a state revenue source.

2. Expenditures:

None. The bill does not create, modify, amend, or eliminate state expenditures.

**B. FISCAL IMPACT ON LOCAL GOVERNMENTS:**

1. Revenues:

None. The bill does not create, modify, amend, or eliminate a local revenue source.

2. Expenditures:

The bill may represent a minimal non-recurring positive impact on local government expenditures. A bill enacting or amending a public records exemption causes a non-recurring negative fiscal impact in the year of enactment as a result of training employees responsible for replying to public records requests. In the case of bills reviewed under the Open Government Sunset Review process, training costs are incurred if the bill does not pass or if the exemption is amended, as retraining is required. Because the bill eliminates the repeal of the exemption, local governments may recognize a minimal nonrecurring decrease in expenditures because employee-training activities are avoided.

**C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:**

None.

**D. FISCAL COMMENTS:**

None.

**III. COMMENTS**

**A. CONSTITUTIONAL ISSUES:**

1. Applicability of Municipality/County Mandates Provision:

The bill does not require counties or municipalities to spend funds or to take an action requiring the expenditure of funds. The bill does not reduce the percentage of a state tax shared with counties or municipalities. The bill does not reduce the authority that municipalities have to raise revenue.

2. Other:

None.

**B. RULE-MAKING AUTHORITY:**

None.

**C. DRAFTING ISSUES OR OTHER COMMENTS:**

**Open Government Sunset Review Act**

The Open Government Sunset Review Act sets forth a legislative review process for newly created or substantially amended public records or public meetings exemptions. It requires an automatic repeal of the exemption on October 2<sup>nd</sup> of the fifth year after creation or substantial amendment, unless the Legislature reenacts the exemption.

The Act provides that a public records or public meetings exemption may be created or maintained only if it serves an identifiable public purpose, and may be no broader than is necessary to meet one of the following purposes:

- Allowing the state or its political subdivisions to effectively and efficiently administer a governmental program, which administration would be significantly impaired without the exemption;
- Protecting sensitive personal information that, if released, would be defamatory or would jeopardize an individual's safety. However, only the identity of an individual may be exempted under this provision; or,
- Protecting trade or business secrets.

If, and only if, in reenacting an exemption that will repeal, the exemption is expanded (essentially creating a new exemption), then a public necessity statement and a two-thirds vote for passage are required because of the requirements of Art. 1, s. 24(c), Florida Constitution. If the exemption is reenacted with grammatical or stylistic changes that do not expand the exemption, if the exemption is narrowed, or if an exception to the exemption is created (e.g., allowing another agency access to the confidential or exempt records), then a public necessity statement and a two-thirds vote for passage are not required.

**IV. AMENDMENTS/COMMITTEE SUBSTITUTE & COMBINED BILL CHANGES**

On January 11, 2006, the Governmental Operations Committee adopted an amendment to PCB GO 06-02 and reported the bill favorably. The current public records exemption for information concerning a child of a local government manager was inadvertently removed from the bill. The amendment reinstated the application of that exemption.

## FULL ANALYSIS

### I. SUBSTANTIVE ANALYSIS

#### A. HOUSE PRINCIPLES ANALYSIS:

**Provide limited government** – The bill narrows the public records exemption thereby increasing public access to government information.

#### B. EFFECT OF PROPOSED CHANGES:

##### **Background**

##### Public Records Exemption for Code Enforcement Officers

Code enforcement officers (officers) are responsible for the administration of a wide range of health, safety, and environmental regulations. Current law provides a public records exemption for certain identification and location information regarding a current or former officer.<sup>1</sup> Specifically, the home address, telephone number, social security number, and photograph of the officer are exempt from public disclosure. In addition, a public records exemption exists for the:

- Name, home address, telephone number, social security number, photograph and place of employment of the spouse of the officer; and
- Name, home address, telephone number, social security number, photograph, place of employment, and the name and location of the school or daycare facility attended by the child of the officer.

Further, an agency, other than the employing agency, must maintain the exempt status of the identification and location information upon receipt of a written request by the officer or that officer's employer.<sup>2</sup>

Pursuant to the Open Government Sunset Review Act,<sup>3</sup> the exemption will repeal on October 2, 2006, unless reenacted by the Legislature.

##### Open Government Sunset Review of the Exemption

House staff reviewed the public records exemption pursuant to the Open Government Sunset Review Act and determined that, with modification, the exemption meets the requirements for reenactment.<sup>4</sup> Staff concluded that certain information currently protected by the public records exemption either is protected by a more general public records exemption or is not maintained by the employing agency. A narrower public records exemption protects the release of social security numbers.<sup>5</sup> The employing agency does not maintain the photograph of the spouse or child of the officer.

##### **Effect of Bill**

The bill removes the repeal date, thereby reenacting the public records exemption. It narrows the public records exemption by removing the exemption for the photograph of the spouse or child of an officer. The bill removes the duplicative public records exemption for social security numbers. It also makes editorial changes.

**C. SECTION DIRECTORY:**

Section 1 amends s. 119.071(4)(d), F.S., to reenact and narrow the public records exemption for officers.

Section 2 provides an effective date of October 1, 2006.

**II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT**

**A. FISCAL IMPACT ON STATE GOVERNMENT:**

1. Revenues:

None. The bill does not create, modify, amend, or eliminate a state revenue source.

2. Expenditures:

None. The bill does not create, modify, amend, or eliminate state expenditures.

**B. FISCAL IMPACT ON LOCAL GOVERNMENTS:**

1. Revenues:

None. The bill does not create, modify, amend, or eliminate a local revenue source.

2. Expenditures:

The bill may represent a minimal non-recurring positive impact on local government expenditures. A bill enacting or amending a public records exemption causes a non-recurring negative fiscal impact in the year of enactment as a result of training employees responsible for replying to public records requests. In the case of bills reviewed under the Open Government Sunset Review process, training costs are incurred if the bill does not pass or if the exemption is amended, as retraining is required. Because the bill eliminates the repeal of the exemption, local governments may recognize a minimal nonrecurring decrease in expenditures because employee-training activities are avoided.

**C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:**

None.

**D. FISCAL COMMENTS:**

None.

**III. COMMENTS**

**A. CONSTITUTIONAL ISSUES:**

1. Applicability of Municipality/County Mandates Provision:

The bill does not require counties or municipalities to spend funds or to take an action requiring the expenditure of funds. The bill does not reduce the percentage of a state tax shared with counties or municipalities. The bill does not reduce the authority that municipalities have to raise revenue.

2. Other:

None.

**B. RULE-MAKING AUTHORITY:**

None.

**C. DRAFTING ISSUES OR OTHER COMMENTS:**

**Open Government Sunset Review Act**

The Open Government Sunset Review Act sets forth a legislative review process for newly created or substantially amended public records or public meetings exemptions. It requires an automatic repeal of the exemption on October 2<sup>nd</sup> of the fifth year after creation or substantial amendment, unless the Legislature reenacts the exemption.

The Act provides that a public records or public meetings exemption may be created or maintained only if it serves an identifiable public purpose, and may be no broader than is necessary to meet one of the following purposes:

- Allowing the state or its political subdivisions to effectively and efficiently administer a governmental program, which administration would be significantly impaired without the exemption;
- Protecting sensitive personal information that, if released, would be defamatory or would jeopardize an individual's safety. However, only the identity of an individual may be exempted under this provision; or,
- Protecting trade or business secrets.

If, and only if, in reenacting an exemption that will repeal, the exemption is expanded (essentially creating a new exemption), then a public necessity statement and a two-thirds vote for passage are required because of the requirements of Art. 1, s. 24(c), Florida Constitution. If the exemption is reenacted with grammatical or stylistic changes that do not expand the exemption, if the exemption is narrowed, or if an exception to the exemption is created (e.g., allowing another agency access to the confidential or exempt records), then a public necessity statement and a two-thirds vote for passage are not required.

**IV. AMENDMENTS/COMMITTEE SUBSTITUTE & COMBINED BILL CHANGES**

None.
